

MUJAHID AMIN

Flutter developer

✉ mujahidameen205@gmail.com 📍 Nigeria 🌐 github.com/mujahidamin1

PROFESSIONAL SUMMARY

Flutter Developer with hands-on project experience building multiple end-to-end mobile applications, including e-commerce platforms, task management tools, and cryptocurrency trackers. Developed cross-platform apps using Flutter, Dart, Firebase, and state management tools like Riverpod and Provider. Built and deployed systems featuring real-time tracking, REST API integration, and secure payment processing.

EDUCATION

Bachelor of Science in Software Engineering

Bayero University, Kano

Graduated: 2026

2026

TECHNICAL SKILLS

Mobile Development

Flutter, Dart, Cross-platform Development (Android & iOS)

State Management

Provider, Riverpod

Backend & APIs

REST API Integration, Firebase

Payment Integration

Paystack, Flutterwave

DevOps & Tools

Git, GitHub, CI/CD (GitHub Actions), Version Control

PROJECTS

CampusMart - Campus Marketplace Mobile App

Developed a full-stack e-commerce system for Trading of used product within a campus. Has a mobile application and web-based admin panel for product, delivery and order management.

- Built client app with product browsing, smart search, product posting and real-time order tracking functionality.
- Created admin panel for order and delivery management.
- Implemented Riverpod state management architecture for scalable application logic
- Integrated Paystack payment gateway for secure transaction processing

Technologies: Flutter, Dart, Firebase
