SUMMARY

Motivated fourth-year BTech student majoring in Computer Science and Engineering (CSE), with a strong interest in Flutter app development. I have a basic understanding of Flutter and Dart, along with working knowledge of Firebase for backend integration. I've built several UI-focused apps and have basic experience with state management using Provider. In addition, I'm skilled in creating static and responsive websites using HTML, CSS, JavaScript, and Bootstrap. I am eager to expand my skills in cross-platform development and contribute to impactful mobile applications.
