

OM LINGAYAT

Flutter Developer | Dart | BLoC / Riverpod | REST APIs | Android & iOS Development
omlingayat183@gmail.com • +91 9405493835 • Nashik, Maharashtra • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Flutter Developer with 6 months of hands-on internship experience building production-grade mobile applications for iOS and Android. Proficient in Dart, BLoC/Cubit and Riverpod state management, REST API integration (Dio & HTTP), and local storage (Hive, SharedPreferences, SQLite). Strong foundation in clean UI architecture, reusable component systems, session handling, and app navigation. Eager to contribute to a focused iOS-first Flutter team and grow within a product-driven environment.

PROFESSIONAL EXPERIENCE

Software Trainee Engineer — Flutter Developer

Mar 2025 – Aug 2025

ATJOIN Pvt. Ltd. | Pune, Maharashtra | Internship (6 Months)

- **Built and maintained Flutter UI** for a mobile app targeting iOS using Material Design, focusing on responsive layouts, smooth animations, and clean component separation.
- **Implemented BLoC / Cubit** for scalable state management alongside Provider and Riverpod under senior developer guidance.
- **Integrated REST APIs** using Dio and HTTP packages to handle dynamic data flows, request/response management, and error handling.
- **Session & Auth management:** Integrated Firebase Authentication for user login, token storage, auto-login flows, and secure logout.
- **Local storage:** Used Hive, SQLite, and SharedPreferences for persistent data, offline support, and caching.
- **iOS testing:** Ran and validated app behaviour on iOS simulators; familiar with TestFlight distribution basics.
- **Delivered reusable widget systems** to maintain clean, readable, and maintainable UI code across multiple feature modules.
- **Version control & collaboration:** Used Git/GitHub throughout development cycles and worked closely with backend and design teams.

PROJECTS

E-Commerce Mobile App — Flutter, BLoC, Provider, REST APIs, Firebase Auth, Hive/SQLite

- Built product listing, dynamic cart, checkout, and order-tracking modules with clean BLoC-driven state management.
- Integrated Firebase Auth and REST APIs via Dio for secure user sessions and backend data operations.
- Implemented offline capabilities using Hive, SQLite, and SharedPreferences for seamless user experience.

Hotspot Host Onboarding System — Flutter, Riverpod, Multimedia APIs, Glassmorphism UI

- Built a multi-step onboarding flow with text input, audio recording (waveform visualiser), and video capture modules.
- Used Riverpod for predictable, scalable state management across a complex multi-screen flow.
- Designed a responsive glassmorphism UI with fully reusable and modular widget components.

GitHub: github.com/omlingayat183/hotspot-host-onboarding

Movie Discovery App — Flutter, Local JSON, State Management, Navigation

- Developed a movie browsing interface with search, category filters, detail screens, and paginated data loading.
- Implemented efficient JSON parsing, local caching, smooth loading states, and clean named-route navigation structure.
- Designed a responsive UI with fluid animations and optimised rendering for large datasets.

GitHub: github.com/omlingayat183/movie_app

Real-Time Agent Dashboard — Flutter, Provider, Firebase Realtime Database

- Developed a dashboard for real-time chat monitoring and agent performance tracking using Firebase Realtime Database.
- Designed a clean Material UI layout optimised for efficient data-heavy workflows and live activity updates.

TECHNICAL SKILLS

Languages: Dart

Framework: Flutter, Material Design, Custom Widgets, Reusable Component Systems

State Management: BLoC / Cubit, Riverpod, Provider

API & Networking: REST APIs, Dio, HTTP, JSON Parsing, Complex Data Flow Handling
Authentication & Session: Firebase Auth, Token Storage, Auto-Login, Secure Logout
Local Storage: Hive, SQLite, SharedPreferences, Secure Storage (basics)
iOS Development: iOS Simulator Testing, TestFlight Basics, iOS Build Configuration
Firebase: Authentication, Firestore, Realtime Database, Functions (basics)
Navigation & Routing: Named Routes, Navigator 2.0, GoRouter (basics)
Testing & Tools: Unit Testing, Widget Testing, Flutter DevTools, Git/GitHub, Flutter Inspector

EDUCATION

B.Tech in Computer Science & Engineering <i>Parul Institute of Engineering and Technology Vadodara, Gujarat</i>	May 2025
Diploma in Computer Science & Engineering <i>SND Polytechnic Yeola, Maharashtra</i>	Jun 2022
