

WHAT WE DO

Web Development

UI/UX Design

Fintech Solutions

Backend Systems

Graphic Design

Video Editing

RECENT WORK

POS Management System

A complete retail management system built for a local business. Handles inventory, billing, and daily sales tracking. Helped them move from manual records to digital operations.

WHO WE ARE

 Muhammad Zain — Development & Design

 Muhammad Ahmad — Creative & Media

A small, focused team. We take on projects we believe in and see them through.

ABOUT US

PHIXXLABS started in 2020 as a small collaboration between developers and designers. We focus on building practical, well-crafted digital products. Our approach is straightforward: understand the problem, build the right solution, and stay involved until it works.

TECHNOLOGIES WE WORK WITH

Html 5

Css

Java Script

React.js

Node.js

Firebase

Tailwind CSS

HOW WE WORK

-  Clear communication — no jargon, no guessing
-  Practical solutions — we build what actually gets used
-  Realistic timelines — we deliver what we promise
-  Support after launch — we don't disappear
