React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Redux, Redux Toolkit, Context API, Tailwind CSS, Material UI, Bootstrap, REST APIs, WebSockets, Socket.IO, Git, GitHub, CI/CD, Webpack, Postman, Jira

Work Experience

Associate Software Engineer – Frontend

Hashstudios Technologies | Noida

Aug 2023 - Dec 2025

- Built scalable React.js and Next.js applications used by 5,000+ users; improved load times by 35%.
- Developed reusable component architecture using Redux Toolkit and TypeScript.
- Delivered real-time features with WebSockets and Socket.IO and integrated 10+ REST APIs.

Software Engineer Trainee – Frontend

Hashstudios Technologies | Noida

Aug 2022 - Aug 2023

- Developed responsive UI using React.js, JavaScript, HTML, and CSS; assisted in API integration and bug fixes.

Education

Master of Computer Applications in Computer Applications

Maharshi Dayanand University

2026

Project Experience

GoldBazaar – Digital Gold Investment Platform

Built a production-grade mobile application enabling users to invest in 22K and 24K digital gold with live price updates. Implemented OTP-based authentication, KYC onboarding, wallet management, and secure payment gateway integration. Managed application state using Redux and ensured smooth user experience across Android and iOS devices.

Motonexa – Automotive Service Platform

Developed role-based dashboards for multiple user types with real-time messaging and workflow tracking. Integrated Socket.IO for live status updates and notifications, improving operational efficiency. Reduced navigation and task completion time by 25% through optimized UI flows.
