

SHIVAM KASHYAP

Frontend Developer (JavaScript) | Full Stack Developer – MERN (Projects)

✉ shivamkashyap1521@gmail.com [in LinkedIn](#) ☎ +91 9896661060 📍 Panipat, Haryana

Professional Summary

Frontend Software Engineer with 2+ years of experience building production e-commerce features using JavaScript, Smarty, HTML, CSS, and Bootstrap. Currently building full stack MERN applications through independent projects; immediate joiner.

Skills

- **Frontend:** JavaScript (ES6), React, HTML5, CSS3, Bootstrap, jQuery, Smarty
- **Backend (Project Experience):** Node.js, Express.js, REST APIs
- **Databases (Project Experience):** MongoDB
- **Programming Languages:** JavaScript, C++
- **Tools & Platforms:** Git, GitHub, Postman, Lighthouse, Chrome DevTools

Experience

CommerceV3, Gurugram — Associate Software Engineer

March 2023 - Jan 2026

- Improved user **checkout efficiency** by 42% by integrating Smarty address autocomplete APIs into JavaScript-based checkout flows, reducing form fill time and cart abandonment.
- Diagnosed and resolved **Core Web Vitals** issues, reducing Largest Contentful Paint (LCP) from 8s to 2s by optimizing images, implementing lazy loading, and refining CSS delivery, resulting in a 15-point increase in Lighthouse performance score.
- Engineered secure payment processing by integrating multiple **payment gateways** (Authorize.Net, Tempus) using **Drop-In UI** components and **REST APIs**, with robust error handling to ensure a seamless transaction flow.

Projects

Mewar Delight | MERN Stack Independent Project

Jan 2026 - present

- Building a real-world e-commerce mithai store enabling users to browse **products**, **manage carts**, and **place orders**.
- Developed responsive, user-focused UI with **React** and **Bootstrap**, implementing **authentication** with role-based access for customers and admins.
- Built **RESTful APIs** with **Node.js** and **Express**, integrated **frontend** and **backend** for seamless user experience, and used **MongoDB** for persistent data storage.
- Completed shopping cart and order creation functionality; payment gateway integration is in progress.
