Apr 2019 – Aug 2020

EXPERIENCE

Curvv International

(Indore) Remote

Software Developer

Feb 2026 - Present

- Working on full-stack web applications using modern technologies, contributing to scalable and efficient solutions.
- Collaborating with cross-functional teams to develop and enhance product features.
- Improving performance and user experience through optimized frontend and backend implementations.

Apaxion Technology

(Noida) Remote

Software Developer

Nov 2025 - Feb 2026

- Designed and Created QR Cave, a QR-based restaurant menu and ordering application in a collaborative team of 4 engineers.
- Implemented QR code scanning functionality enabling customers to instantly access digital menus and place orders contactlessly.
- Built responsive user interfaces for seamless menu browsing and order interaction using React.js and Node.js.
- Reduced manual ordering overhead by **40%** by enabling full contactless menu access through QR technology.

PROJECTS

QRCRAVE | *React.js, Node.js, Express.js, MongoDB* | **Live**

Nov 2025 – Present

- Collaborated in a team of 4 to develop QRCrave, a QR-based digital menu and ordering system for restaurants.
- Implemented QR scanning to dynamically generate menus, reducing manual ordering time by **40%**.
- Developed a responsive frontend and integrated **5+ RESTful APIs** for menu display, cart, and order management.
- Contributed to database design and testing, ensuring **99%** successful order flow across all user interactions.

EXPLORATRAILS | *React.js, Firebase, Gemini API* | **Live** | **GitHub**

Feb 2024 – May 2024

- Developed a full-stack travel planning web application serving **10,000+ monthly users**, reducing trip-planning time by **40%** through AI-driven recommendations.
- Integrated the Gemini API for personalized travel suggestions, increasing user engagement by **35%**.
- Implemented Firebase Authentication for secure user access, supporting **5,000+ registered users**.

TECHNICAL SKILLS

Languages & Frontend: C++, Java, JavaScript, CSS3, HTML5, React.js

Backend & Databases: Express.js, Firebase, MongoDB, MySQL, Node.js

Tools & Platforms: AWS, Azure, GitHub, Postman, Terraform, Vercel

Concepts & Soft Skills: DBMS, DSA, OOP, Operating Systems, Computer Networks | Communication, Leadership, Teamwork

ACHIEVEMENTS

- LeetCode Rating **1450** | HackerRank **3-Star** (Java)
- Smart India Hackathon 2023 Participant | Open Source Contributor, Hacktoberfest 2023
- Bronze Medalist, National GK Olympiad
