SUMMARY

Full Stack Developer with 2 years of experience building scalable web applications. Skilled in **React, Next.js, TypeScript, Tailwind CSS** for **frontend development** and **Node.js, Express, MongoDB** for backend services. Experienced in **API development, frontend-backend integration**, and basic **DevOps** practices including deployment, and environment management.

SKILLS

- **Programming Languages:** Javascript, Typescript
- **Web Technologies:** React, Nextjs, Express, Nodejs, Tailwind, GSAP, React query
- **Database Systems:** MongoDB, Redis
- **Cloud Technologies:** AWS, Render, Vercel, Netlify
- **DevOps & Version Control:** Git, Github, Docker, Gitlab

EXPERIENCE

- **Totality Corp**  October 2024 - Present
SDE 1 Gurugram, India
 - Took **end-to-end ownership** of frontend development for 3+ production web applications, **handling development, API integration, performance optimization**, and deployment.
 - Built **30+ responsive and reusable UI components using React and Next.js**, ensuring cross-browser compatibility and **scalable architecture**. Developed and **optimized frontend** workflows for Jupito (AI-powered counseling platform), improving **UI responsiveness** and engagement by 35
 - Integrated REST APIs and AI services, including consuming data via a **bridge server converting gRPC bidirectional streaming** to REST, reducing page load time by 30
 - Contributed to Greenr, an environmental sustainability **platform—building core UI modules** and integrating analytics and reporting APIs.
- **Wellnessz**  May 2024 - September 2024
Frontend Developer Intern Remote
 - Built 20+ responsive and user-friendly UI components using **React.js and Tailwind CSS** for production-ready features.
 - Integrated REST APIs with frontend workflows, ensuring smooth data rendering and improving user experience by 25
 - Collaborated with backend teams to integrate ML-powered features, enabling real-time insights in product dashboards.

PROJECTS

- **Jupito - AI powered counselor** | [Live Link](#) July 2025 - November 2025
Tools: Next.js, React, TypeScript, Tailwind CSS, GSAP, DaisyUI, REST APIs
 - **Built a full-stack AI-powered counseling platform** supporting 10+ conversational flows, with a **responsive frontend** using Next.js and **structured backend API integration**.
 - **Implemented real-time conversational UI** by consuming AI-generated responses via REST APIs, ensuring sub-second UI updates and reliable data flow.
 - Managed frontend state, API error handling, and async data **pipelines, reducing UI failures and improving response stability** by 30
 - Developed 25+ reusable UI components and optimized rendering performance, **improving page load speed and interaction smoothness** by 35
- **Totality Corp - Totality corp website** | [Live link](#) November 2024 - December 2025
Tools: Nextjs, Tailwind, Typescript, GSAP, Daisy
 - **Architected and launched a visually rich**, fully responsive corporate website with a **modern UI focused on performance and brand storytelling**.
 - Crafted high-impact, **fluid animations and micro-interactions using GSAP**, significantly elevating user engagement and overall visual appeal.
 - Engineered scalable, **reusable component systems using Tailwind CSS and DaisyUI**, ensuring pixel-perfect consistency across the application.
 - Implemented dynamic, **API-driven content pipelines**, enabling seamless updates and **future-ready scalability** with minimal manual intervention.

EDUCATION

Delhi University Bachelor Degree
