Mar '18 — Apr '19

PROJECTS

Home Appliance Testing [Link](#)

- A WordPress-based service platform providing testing and quality assurance for home appliances. The site is cleanly structured, with clear service sections and contact options to support user trust and conversion

Speaking Art [Link](#)

- A non-profit WordPress site for the Speaking Art Foundation that promotes artists through exhibitions, workshops, and art therapy. It highlights their mission, founder, and various art-driven community programs

Galerie Nifa [Link](#)

- A modern art gallery site showcasing curated artwork in an elegant, visual-first design. The WordPress layout emphasizes image galleries, exhibitions, and artist profiles to present creative pieces beautifully

CRSS Solutions [Link](#)

- A technology company offering next-gen IT solutions like robotics, ERP, and interactive software for schools, hospitals, and businesses. The site uses WordPress to present services, case studies, team, and project details cleanly and professionally

Industrial Instruments Website [Link](#)

- A corporate site for Sipcon Instruments, built with clean HTML and CSS, showcasing their precision measurement equipment like profile projectors and video measuring systems

Naukri Suchna [Link](#)

- A job-listing WordPress portal focused on government (Sarkari) jobs across India, offering categorized job updates, application guidance, and regular vacancy information
