Professional Summary

MERN Stack Developer with hands-on experience in building scalable, responsive, and high-performance web applications. Strong expertise in React.js, Node.js, Express.js, MongoDB, JavaScript (ES6+), Redux, and modern UI frameworks. Proven ability to develop reusable components, integrate RESTful APIs, and build full-stack applications using the MERN stack. Focused on clean code, modular architecture, and performance optimization. Experienced in implementing authentication systems and integrating payment gateways to deliver secure and production-ready web applications.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB, Firebase

Tools: Git, GitHub, VS Code, Vite

Concepts: MERN Stack, API Integration, Component-Based Architecture, State Management

Experience

NVSG IMPEX PVT. LTD

September 2025 – Feb 2026

Frontend Developer Intern

Noida, India

- Developed and maintained 10+ responsive web interfaces using React.js and Tailwind CSS improving user experience and page responsiveness.
- Built 15+ reusable UI components using React Hooks reducing development time and improving code maintainability.
- Integrated 8+ RESTful APIs using Axios and Fetch to enable dynamic data rendering and improve application functionality..
- Optimized frontend performance and ensured cross-browser compatibility across modern web applications.

Projects

Tomato – Food Delivery Platform | [Live](#)

React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs

- Developed a full-stack MERN food delivery platform supporting 20+ menu items, cart management, authentication, and Stripe payment integration.
- Implemented secure user authentication and authorization using JWT for login and signup functionality.
- Integrated Stripe payment gateway to enable secure online payments and seamless checkout experience.
- Implemented secure checkout flow and payment confirmation using Stripe APIs ensuring reliable transaction processing.
- Built 25+ responsive UI components using React.js improving usability across mobile and desktop devices.
- Managed application data using MongoDB for efficient storage of users, food items, and order details.
- Designed and integrated RESTful APIs using Node.js and Express.js to handle user management, cart operations, and order processing.

Agency.ai – Digital Agency Website | [Live](#)

React.js, Vite, JavaScript, Web3Forms, Framer Motion

- Developed a modern responsive digital agency website using React.js and Vite.
- Implemented interactive UI components and animations using Framer Motion to enhance user engagement.
- Integrated Web3Forms API for contact form submission and lead management.
- Designed clean and responsive layouts ensuring compatibility across mobile, tablet, and desktop devices.
- Built reusable React components to improve code maintainability and development efficiency.
- Optimized website performance using Vite for faster build times and improved page loading speed.

Education

Amity University

2026 – Present

Bachelor's Degree in Computer Application

Noida, India
