PROFILE SUMMARY

Full Stack Developer with strong knowledge of NodeJS, OOPS, SQL, Core Java and REST APIs, along with frontend skills in ReactJS, HTML, CSS, and JavaScript. Experienced in building responsive web applications and working with Git and Postman. Seeking an opportunity as a Full Stack Developer to contribute and grow in a dynamic environment.

SKILLS

Frontend: HTML, CSS, JavaScript, ReactJS

Backend: REST API, NodeJS, ExpressJS

Databases: SQL, MongoDB

Tools: Git, GitHub, Xyleme, VS Code

Core Concepts: OOP, REST APIs, Git, GitHub

EDUCATION

INDIRA GANDHI ENGINEERING COLLEGE SAGAR M.P. | July 2021- June 2025

Bachelor of Technology | Information Technology

CGPA: 7.37/10

PROFESSIONAL EXPERIENCE

Harbinger Group | Xyleme Developer (Frontend) | Oct 2025 – February 2026

- Working on frontend development of web-based content using the Xyleme platform.
- Developed and customized UI components to improve website structure and user experience.
- Gained experience working in a corporate development environment with real-world projects.

JOB SEARCH APPLICATION | [GitHub](#)

- Built a Job Search web app using React and dynamic job listings.
- Implemented API integration for fetching detailed job data and displaying it efficiently.
- Used React Router for smooth navigation between job list and job details pages.
- Maintained clean, modular code with reusable components and proper state management.

CAR RENTAL WEBSITE (MERN Stack) | [GitHub](#)

- Developed a fully functional web application for car rentals with user login and booking features
- Created backend APIs to manage cars, users, and bookings
- Implemented MongoDB database integration for storing and managing user, car, and booking data efficiently.

CERTIFICATION & ACHIEVEMENTS

- Participated in 35+ coding contests on CodeChef.
- Solved 200+ DSA problems on GeeksforGeeks & CodeChef.
