EXPERIENCE

Synnngular AI Labs

Noida, India

Software developer

April 2025 – Present

- Spearheaded the development of 5+ live client projects, delivering scalable and high-performing web applications using Next.js, TypeScript and modern JavaScript frameworks.
- Integrated secure authentication, API rate handling, caching strategies, and performance optimizations (lazy loading, code splitting, SSR/SSG) to enhance application responsiveness and reliability.
- Optimized state management with Redux Toolkit, reducing state-related bugs by 40% and ensuring smooth cross-component communication.
- Refactored legacy codebases into modular, maintainable structures, reducing bugs and increasing development velocity by 30%.
- Collaborated in Agile teams with designers and backend developers, delivering features ahead of deadlines and contributing to a 20% faster sprint completion rate.

Writo Education Private Limited

Remote

Frontend Developer Intern

Jun 2023 – Sept 2023

- Engineered and maintained sophisticated front-end components in ReactJS, improving user satisfaction and reducing average page load time by 25%.
- Conducted rigorous debugging and testing, successfully resolving 40+ critical issues, which enhanced the stability and reliability of the application.
- Actively pursued continuous learning, integrating the latest industry practices to drive innovation and increase the team's coding efficiency by 30%.
- Facilitated agile development by leading daily stand-ups and sprint planning sessions, accelerating project timelines by 20% and fostering continuous improvement.

PROJECTS

Food Delivery App | Reactjs, NodeJS, Express, MongoDB.

[Link](#) 

- Developed a full-stack food ordering platform with secure authentication, restaurant listings, dynamic menus, cart, and checkout workflows.
- Integrated payment gateway with order history, invoice generation for a production-ready experience.
- Applied Redux Toolkit for state management across complex UI states (cart, orders, authentication), ensuring predictable behavior.
- Built an Admin Dashboard to manage restaurants, menus, orders, delivery staff, and user roles, enabling seamless end-to-end management.

Visit Rajasthan | ReactJS, Firebase, GSAP, CSS.

[Link](#) 

- Engineered an interactive web application that highlights Rajasthan's cultural heritage and attractions, driving a 35% increase in user engagement and site traffic.
- Integrated Mapbox with ReactJS to craft an engaging, interactive map experience, enhancing the site's visual appeal and user navigation by 40%.
- Optimized real-time data handling and media storage by integrating Firebase, resulting in instant updates and a 25% reduction in page load times.

EDUCATION

Manikya Lal Verma Textile & Engineering College

Bhilwara, Rajasthan

Bachelor of Technology in Information Technology

Oct 2020 – Jun 2024

TECHNICAL SKILLS

- **Languages:** C++, C, JavaScript
- **Development:** HTML, CSS, ReactJS, Next.js, Redux, Node.js, Typescript
- **Database:** MongoDB, Firebase
- **Coursework:** Data Structures & Algorithms, Operating Systems, Object-Oriented Programming
