Percentage: 72%

Bhopal, India

April 2019 – April 2020

WORK EXPERIENCES

Full Stack Developer

April 2025 – Present

At GrowRex Media, Indore | On-Site

- Designed and implemented **responsive web interfaces** using **HTML5, CSS3, JavaScript, and React**, delivering seamless user experiences across devices.
- Collaborated with back-end developers to integrate **REST APIs** and dynamic data into front-end components, applying **MERN stack principles** when needed.
- Developed reusable **React components and modular front-end architecture**, improving code maintainability and application scalability.

•

Associate System Engineer

January 2025 – March 2025

At American Chase pvt ltd, Indore | On-Site

- Developed and maintained responsive web applications using **HTML5, CSS3, JavaScript, and React**, ensuring cross-browser compatibility and optimal user experience.
- Collaborated with UI/UX designers and back-end developers to implement interactive features, improve performance, and deliver high-quality front-end solutions.
- Optimized application performance and debugged front-end issues, leveraging **React components, state management, and modern JavaScript best practices**.

PROJECTS

Resort Booking Web Application | React (Hooks & Functional Components)

- Developed a **Resort Booking Web Application** using **React, functional components, and Hooks** for state and effect management.
- Implemented **dynamic booking forms, date selection, and real-time availability display** to enhance user experience.
- Managed project dependencies with **npm** and structured modular, reusable components for scalability.
- Designed **responsive UI** with CSS ensuring seamless functionality across desktop and mobile devices.

E-Commerce Platform (Amazon Clone) | React & Firebase

- Developed a fully functional Amazon-like e-commerce web application using **React.js** and **Firebase**.
- Implemented user authentication (Sign up / Login / Logout) using Firebase Authentication.
- Built dynamic product listing, add-to-cart, and checkout functionality with state management.
