EXPERIENCE Full-Stack Intern

Eskills Web, Indore M.P.

March 2025 – Dec 2025

I am actively pursuing an internship at E-Skills Web, where they have been recognized as the Star of the Month. Developed and led the CLG-Diary, resulting in a 70% improvement in user engagement and responsiveness by utilizing Redux and frontend development techniques

PROJECTS

Kiyan The AI – AI Virtual Assistant [Link](#)

Personal Project | NodeJS, Gemini API

- Built an AI-based virtual assistant for automated user query handling using chatbot architecture
- Developed a responsive chat interface for real-time user interaction
- Implemented backend API integration for message processing and response generation
- Applied intent-based logic to improve chatbot accuracy and reduce manual support workload

CLG-Diary [Link](#)

- React.js, Redux Toolkit, Tailwind CSS, Html, Node.js, Express.js, MongoDB
- Delivered a single platform combining buy/sell marketplace and event booking features.
- Enhanced performance and scalability using optimized React components and backend minimum 20 APIs.
- Developed a responsive single-page CRM web application using ReactJS

Git-Hub Finder [Link](#)

- Developed a responsive frontend web application using React.js, JavaScript(ES6+), HTML5, and TailwindCSS
- Integrated GitHub REST API using async/await and Axios to fetch and display real-time user data
- Implemented state management, conditional rendering, and error handling for better user experience

✓ Internship at E-Skills Web – **Worked on multiple UI/UX and frontend projects using HTML, CSS, and JavaScript.**

✓ Certified in Web Development – • **Hackerrank – SQL, ReactJS**
