CAREER OBJECTIVE

Results-driven MERN Stack Developer with 1 year of hands-on experience building and deploying full-stack web applications for real clients. Passionate about crafting scalable, high-performance solutions using React.js, Node.js, and MongoDB, with a strong eye for clean UI and efficient code

EXPERIENCE

Junior Web Developer — WorldWebLogic Pvt. Ltd, Noida | Sep 2025 – Present

- Developed and maintained MERN stack applications for live clients including e-commerce and logistics platforms..
- Integrated RESTful APIs with React frontend and optimized UI performance for improved user experience.
- Collaborated with cross-functional teams to deliver features on time and per client specifications.

Junior Web Developer Intern — WorldWebLogic Pvt. Ltd, Noida | May 2025 – Aug 2025

- Contributed to live client projects under senior mentorship; converted to full-time based on strong performance.
- Built UI components, responsive layouts, and connected frontend to backend APIs.

PROJECTS

Atal Opticals – E-Commerce Platform | Live: <https://ataloptical.org/> | MongoDB, Express.js, React.js, Node.js.

- Built a production-ready e-commerce platform for a sunglasses retail client, live and serving real customers.
- Implemented product listings, cart management, and secure checkout functionality from scratch.

Gulf Worldwide Logistics | MongoDB, Express.js, React.js, Node.js.

- Built a full dashboard application for Gulf Worldwide Logistics to import-export shipping operations.
- Implemented features to manage shipment tracking, operational workflows, and enhance overall efficiency.

Digital WebGuider - IT Company Website | React.js, Tailwind, React Router

- Developed a fully responsive IT company website with a modern UI & featuring services.
- Built with React.js and Tailwind CSS using reusable component architecture and Vite for fast development.

AIRBNB Clone (College Group Project) | MongoDB, Express.js, React.js, Node.js.

- Recreated core functionality of the accommodation rental platform, allowing users to browse listings for houses, apartments, and rooms.
- Contributed as a frontend developer focusing on UI components, layout, and navigation.

SKILLS

Libraries/Frameworks: React.JS, Node.js, Express.js, Bootstrap, Tailwind CSS.

Database: MS SQL Server, MongoDB.

Frontend: JavaScript (ES6+), HTML5, CSS3.

Tools: Git & GitHub.
