EDUCATION

Meerut Institute of Engineering and Technology

2022-2026

B.Tech in Computer Science: Artificial Intelligence (AKTU)

Percentage- 76

Translam Academy International

2021-2022

Class 12 (CBSE)

Percentage- 86

Translam Academy International

2019-2020

Class 10 (CBSE)

Percentage- 79

TECHNICAL SKILLS

Languages: Java, Java Script, HTML, CSS

Tools: Vs code, Figma, Canva, Notion, Adobe Express

Technologies: SQL, React.js

Design Skills: Ui/Ux Design, Wireframing, Prototyping, Visual Design, User Research, Interaction Design

Soft Skills: Attention to Detail, Collaboration, Communication, Creativity

PROJECTS

ARMED | CV, MediaPipe

2026

- Developed an AI/ML-based posture analysis system using computer vision to detect and evaluate human body posture in real time.
- Designed logic to provide instant posture feedback, helping users correct posture and reduce musculoskeletal strain.

NearFind-Pro | HTML, CSS, JavaScript

2026

- Built a location-based service finder using HTML, CSS, JavaScript, Geolocation API and Leaflet.js with live OpenStreetMap data.
- Implemented compare services, busy status, dark/light mode, favorites and responsive UI with smooth animations.

TodoBug | Figma

2025

- Designed high-fidelity mobile UI screens for a task management application focusing on productivity tracking and user workflow optimization.
- Developed interactive prototypes and reusable components to ensure design consistency and scalability.

WORK EXPERIENCE

DreeBie Service Private Limited

2026

UI/UX Designer

Remote

- Designed wireframes and prototypes for UI/UX projects, focusing on user-centered design principles to improve usability and interface experience.
- Collaborated with the design team to develop and refine digital interfaces, contributing to multiple UI/UX design tasks during the internship.

SmartInterz

2025

Web Developer Intern

Remote

- Completed a Full Stack Development Internship under SmartInternz, focusing on building and documenting a MERN-based freelancing platform.
- Designed and developed core features such as user authentication, service listings, and project management modules, along with detailed technical documentation for deployment and maintenance.

CERTIFICATIONS

- IBM- User Experience
- Java

- IBM Web-development
- Cisco thingQbator
