

DIVESH RAJPUT

SUMMARY

Enthusiastic and detail-oriented Full Stack MERN Developer with hands-on experience in building scalable web applications using MySQL, Express.js, React.js, and Node.js. Strong foundation in JavaScript, RESTful APIs, and responsive UI development. Adept at problem-solving, debugging, and performance optimization, with a passion for learning new technologies and delivering high-quality, user-centric solutions. A quick learner and collaborative team player, eager to contribute to innovative and real-world projects in a dynamic development environment.

Work Experience

• Mojija E-commerce pvt ltd (Full Stack Developer)

Oct 2025 - Present

Built and maintained end-to-end web applications using the MERN stack (MongoDB, Express.js, ReactJS, Node.js) with clean, reusable, and scalable code. Designed and consumed RESTful APIs, ensuring smooth communication between frontend and backend services. Implemented responsive and user-friendly UI components using ReactJS, improving usability across devices.

• Kaira IT Solutions (Frontend Developer Intern)

July 2025 - Sept 2025

I contribute to the development and maintenance of responsive web applications using HTML, CSS, JavaScript, ReactJS. I participate in code reviews, debugging, and performance optimization to ensure high-quality deliverables.

SKILLS

- **Programming Languages** : HTML, CSS, JavaScript, C, Java, MySQL.
- **Frameworks/Tools** : React.js, Node.js, Express.js, RESTful APIs.
- **Development Tools** : VS Code, Figma, Git/Github.
- **Soft Skills** : Problem Solving, Teamwork, Confidence, Time Management, Quick Learner.

PROJECTS

• Task Management System

Built a Task Management System using React.js and Node.js with Admin and Employee dashboards, including task assignment, leave management, attendance tracking, and employee management features. The system supports role-based access and provides a responsive, user-friendly interface for efficient workflow management. This project strengthened my full-stack development skills, REST API integration, and real-world application design experience.

• HotelHive Website

I Built a responsive web UI using React.js with modular components, CSS-driven styling, and state management for interactive features, improving billing workflow usability.

Developed Hotel Hive — a full-stack room booking application with a React frontend, RESTful API backend, and MySQL database; implemented booking flows, data persistence, and validation.

Integrated frontend with backend APIs to save booking and billing data in MySQL, ensuring secure, consistent data storage and end-to-end functionality.

• Ayurvedic Consultation Website (with React.js)

I developed the UI for an Ayurvedic Website where patients can consult doctors online and receive medicine recommendations. The site was built using React.js for dynamic UI, with CSS for responsive design and clean layouts.

EDUCATION

- **Bachelor of Technology (CSE)**

IIMT Engineering College, Meerut

Pursuing 8th Semester

Aug 2022 - June 2026

- **Intermediate**

A.V.N.Inter College

Scored 71%

March 2022

- **Matriculation**

M.M.Inter College

Scored 72%.

March 2020
