PROJECTS

E-COMMERCE WEBSITE (REACT +JS)

- Tech Stack: HTML, CSS, JavaScript, React.js
- Developed a mini e-commerce site using React to practice state management, component reuse, and user interaction. The application includes a product listing, basic cart system, and filtering mechanism using props and useState hooks.

AMAZON CLONE (FRONTEND)

- Tech Stack: HTML, CSS
- Recreated the look and layout of the Amazon homepage to practice UI design skills using only HTML and CSS. The clone closely replicates Amazon's layout and design system, including banners, categories, and deals section.

REAL ESTATE WEBSITE (React.js, JavaScript)

- Tech Stack: HTML, CSS, Javascript, React.js
- Developed a responsive real estate website using React.js with property listings, search, and filtering features. Enabled detailed property pages, contact form, and smooth navigation with React Router for a seamless user experience.
