WORK EXPERIENCE

React Developer (SDE-1)

Antrika.ai

11/2025 - Present

Noida

Role: React Developer – Feature Development & Support

- Developed and enhanced the **Roster Management module** with features like shift planning, validations, and interactive calendar views (weekly/monthly) using **ReactJS**, **Ant Design**, **Moment.js**, and **React Final Form**.
- Billing System Website**: Built a multi-page website using **React.js** and **SCSS**, and **optimized frontend performance** by improving **Core Web Vitals (CLS)**.
- Qrrectly – Billing Management System** - I worked specifically on the Product module where I implemented Goods & Services selection, form handling, listing, and CRUD operations using React Hooks and SCSS.
- Collaborated with backend teams to **integrate REST APIs** for real-time roster updates and ensured smooth end-to-end functionality.
- Familiarity with **Figma and Adobe XD for UI design** understanding and implementation
- Supported a live employee tracking system by resolving **production bugs**, improving performance, and delivering feature enhancements as part of an agile team.

React Developer (Internship)

Innoblooms info Services Pvt. Ltd.

09/2024 - 11/2025

Noida

My Task in Project

- As a part of the development team, I was responsible for identifying and fixing bugs, creating responsive user interfaces, and contributing to the development of new modules, ensuring seamless integration and optimal functionality within the application
- Designed, developed, and maintained user-friendly and responsive web applications using Next.js
