SUMMARY

Full Stack Developer with 2+ years of experience building end-to-end web applications using React.js, Node.js, Express.js, and MongoDB. Proven track record of delivering pixel-perfect frontends backed by scalable RESTful APIs for enterprise clients including P&G. Skilled in component architecture, state management, database design, and third-party service integrations across the entire application stack.

EXPERIENCE

•Bluethink IT Consulting Pvt. Ltd.

Oct 2025 – Present

Software Engineer

Noida, India

•Ayusmita Healthcare CMS

Tech: React.js, Node.js, Express.js, REST APIs, Medusa.js, MongoDB

- Designed and developed a **React-based admin panel** with a **drag-and-drop content editor** and integrated **REST APIs** on the backend, enabling non-technical staff to manage 20+ website sections without developer intervention.
- Built a **reusable UI component library** on the frontend and a consistent **API layer** on the backend with standardized response patterns, reducing full-stack development time for new features by 25%.
- Implemented **responsive layouts** with code splitting and lazy loading on the frontend, paired with optimized **server-side API responses**, achieving sub-2s initial page loads.
- Integrated a headless e-commerce platform built on **Medusa.js**, handling end-to-end product catalog management and order processing flows.

•Tranzita Systems

Oct 2023 – Apr 2025

Software Development Engineer - I

Lucknow, India

•P&G Logistics Tools — Truck Planning, Forecasting, Debit Tool

Tech: React.js, Node.js, Express.js, JavaScript ES6, REST APIs

- Developed end-to-end **React.js dashboards** with **Node.js/Express.js APIs** for 3 P&G logistics tools (**Truck Planning, Forecasting, Debit Tool**), featuring dynamic data tables, real-time filters, and server-side form validation that reduced manual planning effort by 35%.

•Centum Academy Dashboard & Website

Tech: React.js, Node.js, Express.js, Firebase, CSS3, MongoDB

- Spearheaded full-stack development of the **Centum Academy Dashboard** using **React.js** on the frontend and **Node.js/Firebase** on the backend, delivering real-time analytics charts and interactive student/teacher features that boosted engagement by 40%.
- Designed and shipped the **Centum Academy Website** with fully responsive **React.js** layouts and backend APIs, achieving 100% mobile compatibility and a **Lighthouse performance score above 90**.

EDUCATION

•Bachelor of Technology in Information Technology

2019 – 2023

Babu Banarasi Das Engineering College, Lucknow

Percentage: 84%

PERSONAL PROJECTS

•Blogigy — Full-Stack Blog Application | Live

Tech: React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, JWT

- Built an end-to-end blog platform with a polished **React.js** frontend using **Tailwind CSS** and **Redux Toolkit**, backed by **Node.js/Express.js** RESTful APIs and **MongoDB** for data persistence.
- Developed a full-featured **admin dashboard** with paginated post listings, user management tables, and comment moderation workflows across the full stack.
- Integrated **Firebase** for media uploads and implemented **JWT-based role authorization** with protected route guards on both client and server.

•Job Portal Application | Live

Tech: React.js, Redux, Node.js, Express.js, MongoDB, Cloudinary, Tailwind CSS

- Designed a dual-role interface (Candidate/Recruiter) with **React.js** and **Redux** on the frontend and **Node.js/Express.js** APIs on the backend, implementing advanced multi-filter job search, application tracking, and recruiter dashboards.
- Built end-to-end profile management with **Cloudinary**-powered photo and resume upload, handling file validation on the server and preview rendering on the client.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Material UI, Responsive Design

Backend: Node.js, Express.js, REST APIs, Firebase, Medusa.js

Databases: MongoDB, PostgreSQL, MySQL

Authentication: JWT, Role-Based Access Control, Firebase Auth

Tools & Deployment: Git, GitHub, VS Code, Postman, Cloudinary, Vercel, Render, Lighthouse
