Experience

Frontend Developer - AIEZE Vertex Private Limited -Noida, UP

May 2024 – Oct 2025

Converted Figma and Adobe XD designs into pixel-perfect responsive UI using React.js and Tailwind CSS. Developed responsive designs compatible with all devices and screen sizes (desktop, tablet, mobile). Implemented modern reusable UI components using React.js, Next.js, and Tailwind CSS. Ensured cross-browser compatibility across Chrome, Firefox, Safari, and Edge. Integrated REST APIs to fetch and display dynamic data in dashboards and web applications. Implemented SEO best practices using semantic HTML and Next.js optimization. Used Git and GitHub for version control and collaborative development in agile workflows.

Projects

Facial Recognition Attendance System – M.P. Government

Tech Stack: Next.js, Tailwind CSS, REST API

- Integrated real-time facial recognition automated attendance tracking.
- Developed responsive dashboards to monitor attendance records.

Human Resource Management System (HRMS)

Tech Stack: React.js, Tailwind CSS, REST API

- Developed employee management modules including profile, payroll, and leave management.
- Implemented role-based dashboards for HR, Admin, and Employees.

Company Website

Tech Stack: Next.js, Tailwind CSS, Vercel

- Converted Figma designs into responsive and SEO-optimized web pages using Next.js.
- Deployed the application on Vercel with performance optimization and cross-browser compatibility.

Education

B.Tech - Electronics and Communication Engineering

Institute of Engineering & Technology, Faizabad, Uttar Pradesh
