PROFESSIONAL SUMMARY

Web Designer & Frontend Developer with 4 years of experience in designing and building responsive and user-friendly web applications, including 1 year of experience working with React.js and Next.js. Skilled in HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, and modern frontend tools. Experienced in translating UI/UX designs from Figma and Adobe XD into scalable, maintainable code. Strong focus on performance optimization, accessibility, and cross-browser compatibility.

WORK EXPERIENCE

Frontend Developer – IMG Global Infotech Private Limited

July 2022 – Present

- Developed responsive web applications using HTML5, CSS3, Tailwind CSS, React.js, and Next.js.
- Collaborated with designers to convert Figma and Adobe XD designs into functional UI.
- Improved website load speed by 30% through code optimization and image compression.
- Built reusable components that reduced development time by 25%.
- Integrated REST APIs in collaboration with backend developers.
- Worked on React.js and Next.js based applications for dynamic user interfaces.
