TECHNICAL SKILLS

Languages: Javascript, HTML5, CSS, Mongo DB, Fire

Libraries/Framework : React Js, React Native, Bootstrap, Redux, Bootstrap, Tailwind CSS,

Web Dev Tools: VScode, Git, Github, Prompt Engineering(ChatGPT)

EXPERIENCE

• Vishleshan Software Solution PVT LTD

MAY 2025 - Present

- Developed a dynamic Shareholder Management web application enabling secure share transfer between users with real-time UI updates using React.js and Redux for state management. Improved share transfer processing time and user satisfaction by simplifying the manual share transfer process into a fully digital workflow.
- Designed intuitive, responsive UI components using Material-UI, ensuring a consistent and user-friendly interface across devices.
- Implemented search and filter functionality to quickly locate shareholders and transfer records, improving usability and efficiency.
- I use React js, Redux, Material UI, Axios Interceptors .

• Expound Technivo

Jun 2024 - Feb 2025

- Designed and implemented responsive user interface (UI) components using React and Bootstrap for an Asset Management System at Expound Technivo.
- Collaborated with the design team to ensure a user-friendly interface, optimizing the experience across devices such as mobile, tablet, and desktop.

PERSONAL PROJECTS

• AllMart: Interactive E-commerce Website | Live | Github

- Architected a highly sought-after shopping website, featuring over 100+ diverse products, focused to cater to the wide-ranging needs and preferences of users.
- Curated and systematically organized an impressive selection of products across 10+ different categories with 'Add to Cart', 'Delete from Cart', quantity adjustment features, along with 'Add to Wishlist', 'Search & Filter', 'Toastify' and many more
- Payment & Checkout: Integrated a secure payment gateway, address collection, and order success page reducing check-out abandonment rates by 15%. Stored cart, wishlist, and payment history data locally using local storage.
- Tech Stack: HTML, CSS, Bootstrap, React, Dummy API.

• Vishleshan Store | Live | Github

- Designed and developed a responsive e-commerce platform with comprehensive features including secure login/logout, real-time product search, and user-friendly cart management (add/remove/update quantity).
- Integrated a secure payment gateway (Firebase) enabling seamless order processing with address capture and success confirmation, enhancing end-to-end transaction flow.
- Implemented theme switching (dark/light mode) and toast notifications (Toastify) for improved accessibility and real-time user feedback.
- Tech Stack: React, CSS, Tailwind CSS, React-router, Redux, Firebase.

• MyYoutube | Live | Github

- Spearheaded infinite scroll and N-level commenting, boosting content engagement by 50%
- Optimized live chat, search functionality, and responsiveness, increasing interaction and reducing load time by 40%.
- Tech Stack: HTML, CSS, Tailwind CSS, React, Redux, Youtube API.

• UI Component Library | Live | Github

- Leveraged a library of 50+ HTML, CSS, and JavaScript components to accelerate development, saving over 50% in time while maintaining design and functionality.

EDUCATION

• Dr. Rammanohar Lohia Avadh University, Ayodhya

2020-24

Bachelor of Technology in Computer science and Engineering

CGPA: 7.1

• M S D D I C

2018-20

Intermediate

Percentage: 71.6

COURSEWORK / CERTIFICATES

Certificates: JavaScript Course With Certification - Scaler, React - Scaler, Hackathon - Microsoft Technical Community(LPU)

Areas of Interest: Single page web application, web development and React-native app Development.

Soft Skills: Self-learning, Presentation, Leadership, Collaboration
