Profile Summary

MERN Stack Developer skilled in building responsive and scalable web applications using React, Node.js, Express, and MongoDB. Experienced in API integration, authentication, and state management with focus on clean code and user experience.

Education

Deen Bandhu Chhotu Ram University of Science & Technology, Murthal	Jul 2025
B. Tech in Computer Science & Engineering	7.2 CGPA
Birla Institute of Technology, Mesra	Jun 2022
Diploma in Computer Engineering	8.9 CGPA

Experience

Webmaska – Internship Jul 2025 – Jan 2026

- Built single-page portfolio showcasing client services and projects in a clean, responsive layout.
- Implemented smooth section-based navigation with React Router and developed reusable UI components for optimized, responsive layouts.

Rifcare Tech Pvt. Ltd – Internship Feb 2025 – Jul 2025

- Built core Zipndgo modules including Login/Signup, product listing, order flow, and notifications..
- Integrated REST APIs, improved state management, and collaborated with backend teams for a responsive, stable interface.

Skills

- Programming Languages: Java, C++
- Frontend: HTML, CSS, Javascript, Typescript, React.js, Redux
- Backend: Node.js, Express.js
- Databases & Tools: Mongodb, SQL, Git, Github, Postman

Projects

Netflix GPT - React.js, Firebase, TMDB API, OpenAI API

- Developed a Netflix-inspired web application with secure authentication and protected routing.
- Integrated movie APIs to fetch and display trending and popular content dynamically
- Implemented an AI movie recommendation feature using OpenAI API for personalized suggestions
- Managed application state efficiently and optimized UI for smooth user experience.

Food Ordering App — React

- Developed a responsive food ordering app with restaurant listings and detailed menu pages.
- Implemented category-based filtering and search functionality to enhance user experience.
- Integrated live restaurant API to fetch real-time menu data and location-based results.
- Designed clean and intuitive navigation to simplify restaurant and menu exploration..

Department Portal — React.js, Mongodb, Node.js, Express.js

- Developed a multi-role academic portal with separate access for admin, teachers, and students.
- Implemented modules for syllabus management, notes sharing, attendance tracking, and result updates.
- Designed structured dashboards and role-based authentication for secure access control.
- Organized content and workflows to streamline academic operations and improve user efficiency.

Training and Courses

AI & ML by NIELIT, Delhi

- Built strong foundations in Python, data handling, and ML workflows.
- Worked on data science projects using large datasets and real-world problem statements.
- Covered Python fundamentals, ML basics, and practical data preprocessing techniques.
