Integration & Backend: REST APIs, ERP Integration, Data Synchronization

Web Technologies: JavaScript, React.js, HTML5, CSS3

Databases: MySQL, MS SQL Server

Methodology & Tools: Agile/Scrum, Git, UAT Support, Production Support

PROFESSIONAL EXPERIENCE

Senior Associate Consultant

Sept 2022-Present

Jade Global | Pune, MH

Mendix Developer

- Developed and enhanced enterprise applications using Mendix Studio Pro.
- Designed Domain Models aligned with business requirements.
- Implemented Microflows and Workflows for approval-based business processes.
- Configured application security using User Roles and Access Rules.
- Applied XPath constraints for controlled data visibility.

- Integrated external systems through REST APIs.
 - Participated in sprint planning, requirement discussions, and client demos.
 - Supported UAT cycles and resolved production issues to maintain system stability.
 - Contributed to deployment activities across multiple environments.
-

Project: Rate Card Management Application

- Built workflow-based approval system for pricing configuration.
 - Developed validation logic and automated status transitions using microflows.
 - Ensured integration with backend services via REST APIs.
-

Project: Kanverse Enterprise Support

- Supported ERP integrations and API-based communication.
 - Assisted in cloud deployment and production monitoring.
 - Resolved critical issues ensuring high application availability.
-

CERTIFICATIONS

- Mendix Rapid Developer
 - Mendix Intermediate Developer
 - OutSystems Associate Reactive Web Developer
 - Microsoft Java Programming Certification
-

EDUCATION

B.Tech in Computer Science & Engineering
Sveri's College of Engineering, Pandharpur

Jun 2019-Jul 2022

Diploma in Information Technology
Sveri's College of Engineering, Pandharpur

Aug 2016-May 2019
