SUMMARY

Frontend Software Engineer with 3+ years of professional experience in building scalable, high-performance web applications. Proven experience delivering SaaS platforms, including subscription management and usage-based billing systems. Strong background in performance optimization, responsive UI development, REST API integration, and Agile collaboration.

TECHNICAL SKILLS

Frontend : React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Redux Toolkit, Zustand

Backend : Node.js, Express.js, RESTful APIs

Tools : Docker, Git, GitHub, VS Code, Figma

Core Concepts: Performance Optimization, Code Splitting, Lazy Loading, Component-Based Architecture, SaaS Applications, Agile/Scrum

EXPERIENCE

Software Development Engineer (Freelance)

Self-Employed | Remote, India | August 2023 – Present

- Built and delivered responsive, production-ready web applications using React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS.
- Developed reusable component libraries and followed component-driven architecture to improve maintainability.
- Implemented state management using Redux / Redux Toolkit, TanStack Query, Zustand and Context API.
- Worked on a Stock Register Web Application used to manage and track inventory, stock entries, exits, and balances.

Software Development Engineer

Scaledino | Hyderabad, India | January 2023 – August 2023

- Developed the frontend using Next.js for a seamless user interface.
- Reduced page load time by 30% through code-splitting and lazy loading.
- Improved user retention by optimizing site responsiveness.

Frontend Developer

TrueMeter | Remote | February 2022 – October 2022

- Delivered pixel-perfect, responsive pages with MaterialUI and React.js.
- Built a usage-based billing platform for SaaS with consumption-based pricing.
- Architected updates using Bash/YAML configurations and audited application stability.

Frontend Developer

ApplicateAI | Remote | December 2020 – January 2022

- Developed a responsive, cross-browser UI framework with React and Redux, reducing code redundancy by 50% and boosting feature delivery by 30%.
- Partnered with UX to build a data-driven dashboard, increasing user productivity by 25% and achieving 98% stakeholder satisfaction.

EDUCATION

NIT Calicut | 2014–2018 | Kerala, India

Bachelor of Technology
