I am Web Developer with hands-on experience in building responsive and user-friendly web applications. Skilled in technologies such as HTML, CSS, JavaScript, React.js, Java, ReduxTool Kit, and SQL. Experienced in both frontend and backend development with a strong focus on clean code and performance. Passionate about creating effective and innovative web solutions that enhance user experience.

WORK EXPERIENCE

Ayuda Solutions Pvt. Ltd. (Technical Support)	Ranchi, Jharkhand Nov 2024 – April 2025
• Provided technical support for Safe Exam Browser (SEB) during online examinations. • Responsible for identifying and resolving issues related to SEB tool functionality to ensure smooth exam sessions. • Assisted students and staff in troubleshooting software errors, configuration problems, and network-related issues in real-time. • Maintained accurate logs of technical issues and resolutions to improve future support efficiency.	
Kodnest (Internship-Full Stack Developer)	Bangalore, Karnataka Jun 2024 - Nov 2024
• Gained hands-on experience in full-stack web development with a strong focus on Java, HTML, CSS, JavaScript, React.js, and SQL. • Worked on real-time projects that enhanced my practical understanding of frontend and backend integration. • Learned to develop responsive user interfaces using React.js and styled components. • Implemented CRUD operations using Java and SQL for backend logic and data handling. • Improved problem-solving skills through regular coding assignments and team collaborations.

---	--

CERTIFICATIONS

• Programming With JavaScript • Full stack Development • Frontend Development (HTML, CSS, JAVASCRIPT)

PERSONAL PROJECTS

Employees Management System (React Js + Local Storage) – Developed a web-based Employee Management System where the admin can assign tasks to employees through an admin dashboard. Each employee has a unique login to access their personal dashboard, view newly assigned tasks, task details, estimated completion time, and accept tasks independently. Data is managed using local storage, making the application fast and lightweight. Online E-Learning Websites (HTML, CSS, JAVASCRIPT) -Developed a fully functional online e-learning platform leveraging HTML, CSS, and JavaScript to provide users with an interactive and engaging learning experience. AI- Chat Application(React js, Tailwind Css, Localstorage)- Developed a responsive React js interface styled with Tailwind CSS for Seamless cross-device usability. Integrated the Gemini API to enable intelligent , real-time conversational AI. Implemented persistent chat history using browser’s local storage for an enhanced user experience.
