1 EDUCATION

Chaudhary charan singh university(Sciet)Campus,Meerut
B.Tech - Computer Science and Engineering - **CGPA - 7.5**

2018 - 2022
Meerut, India

2 TECHNICAL SKILLS

Programming Languages: Dart ,JavaScript,Kotlin
Mobile Development: Flutter, Jetpack Libraries
Frontend: BloC (flutterBloc), ReactJS
Backend: NodeJS
Databases: MongoDB, PostgreSQL
Tools / Platforms: Android Studio,Git/Github, Cloudinary,Vercel, Figma,Firebase,Retrofit,RoomDb,Hilt

3 WORK EXPERIENCE

Particle14

Mobile Developer

01/2026 – present
Noida , India

- Developed high-performance mobile features using Flutter, focusing on smooth UI interactions, efficient state management, and seamless API integration.

Tech Immortals

Full Stack / Mobile Developer (Remote)

01/2025 – 12/2025
Noida , India

- Developed and maintained responsive full-stack web and mobile solutions using React, Node.js,Flutter and PostgreSQL.
- Improved user experience and optimized performance through code and collaborated with cross-functional teams to deliver production-ready features on time.

VidyaInterna Hub

Full Stack Developer(Remote)

July/2024 – Nov/2024
Bhopal, India

- Built an interactive EdTech platform with Next.js 13, SSR, and API caching, enhancing page speed and user experience.

4 PROJECTS

[Expense Splitter App](#) | Flutter,Dart,BloC

- Developed a Flutter Expense Splitter app using BLoC architecture for state management and implement event-driven architecture to add, delete, and settle shared expenses.
Calculated dynamic balances (who owes / who gets) from shared expense data and designed clean, reusable UI components with real-time state updates

[Weather App](#) | JetpackCompose,MVVM,Retrofit, , API Integration, Google Maps API

- Developed a weather forecasting mobile application that integrates with the OpenWeatherMap API to fetch real-time weather data based on the user's location. Utilized Retrofit for API communication and JSON parsing to process and display weather information.

[movieApp](#) | Flutter,OMDb API

- Built a Flutter movie app with a grid-based movie list and interactive movie detail screens using OMDb API

[Food Ordering App](#) | Flutter,Dart,RazorPay Payment

- Built a Flutter-based e-commerce app with custom UI and splash screen. Integrated Razorpay payment gateway via native Android modules and Method Channels.and ensured secure transactions and smooth checkout experience.

[News App](#) | Flutter ,Dart,News API

- Built a Flutter News Application using NewsAPI to fetch and display top headlines with image, title, and detailed article view.

[SaaS Application: Ematric](#) | Reactjs,Tailwind CSS

- Designed a responsive SaaS dashboard with reusable components and Integrated data visualization and authentication modules.
