PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable, responsive, and production-grade web and mobile applications using React.js, Node.js, and MongoDB. Strong foundation in Object-Oriented Programming (OOP), RESTful API design, Agile development practices, and Data Structures & Algorithms.

TECHNICAL SKILLS

Languages: C++, JavaScript

Frontend: HTML, CSS, React.js, GSAP

Backend: Node.js, Express.js, REST APIs, MVC Architecture

Database: MongoDB, SQL

Tools/Platforms: Git, GitHub, Netlify, Vercel, Render, VS Code

PROFESSIONAL EXPERIENCE

Devstringx Technologies

Nov 2025 – Jan 2026

React Native Intern

Noida, India

- Developed and deployed a **production-grade Payroll module** for a live enterprise mobile application used by **multiple client organizations**.
- Designed and implemented role-based access control systems following secure authentication principles.
- Improved application performance and user experience through optimized state management and clean architecture practices.

Neuxa Global

May 2025 – Oct 2025

Frontend Development Intern

Remote, India

- Built scalable front-end components using **React.js** and **Next.js**, following a component-driven architecture.
- Developed cross-platform mobile application features using **React Native** and **Expo**.
- Used **Git** and **GitHub** for version control in collaborative workflows.

PROJECTS

Portfolio Website

April 2025

- Developed a professional portfolio website using **React.js**, showcasing personal projects and front-end skills.
- Implemented dynamic page transitions and custom animations using **Framer Motion**.
- Integrated interactive UI components for improved user engagement and creative visual effects.
- Hosted on **Vercel** and applied best practices in React.js and **responsive web design**.

URL Shortener

July 2025

- Developed a responsive **React.js** URL shortener application using modular components and clean UI design.
- Utilized **TanStack Query** for efficient state management, API integration, and background data fetching.
- Implemented **JWT** authentication with cookie-based session handling for route protection and user security.
- Integrated secure **CORS** configurations for seamless frontend-backend communication across different origins.
- Deployed on **Vercel**, optimizing build pipelines and performance in a production environment.

Wanderlust

June 2024

- A full-stack travel and exploration platform enabling users to browse and list destinations.
- Integrated **secure authentication**, **REST APIs**, and modular **MongoDB** schema design.
- Deployed scalable backend architecture using **Node.js** and **Express.js**.
- Built a **responsive** frontend interface following the **MVC framework**.

ACHIEVEMENTS

- **Open Source Contribution** – Implemented a global theme toggler [GitHub]
- Solved 200+ problems on LeetCode

EDUCATION

Madan Mohan Malaviya University of Technology

B.Tech. | Mechanical Engineering – **CGPA: 7.58**

2019 – 2023

Gorakhpur, India

CERTIFICATIONS

- Full Stack Web Development Certificate by Apna College
