## EDUCATION

- **Bachelor of Technology**, KIET Group of Institutions {2022 - 2026}  
Computer Science and Information Technology  
Cumulative GPA: 7.26
- **AISSCE (Class 12th)**, Wisdom Public School  
Overall Percentage: 87.02%

## CERTIFICATIONS

DSA Course  
KIET Group of Institutions

Android Essential Training  
LinkedIn Learning

Python Essentials  
Cisco Networking Academy

## TECHNICAL SKILLS

- **Languages:** Dart, C++
- **Frameworks:** Flutter
- **Backend:** REST APIs, JWT
- **Tools:** Firebase, Git, GitHub
- **Databases:** Firebase Realtime Database

## PROFESSIONAL EXPERIENCE

### Android Developer Intern

Feb 2024 – March 2024

Zidio Development

- Worked with a team of 4 developers to build an Android application.
- Handled backend integration using REST APIs to improve data flow.
- Integrated TMDB API to fetch real-time movie and TV data.

## PROJECTS

### InstagramLite — Social Media App (Flutter + Firebase)

**Tech Stack:** Flutter (Dart), Riverpod, GoRouter, Firebase Auth, Firestore, Firebase Storage, Firebase Messaging

- Developed a full-stack social media application with real-time feed, authentication, and messaging features.
- Implemented scalable architecture using Clean Architecture principles with Riverpod state management.
- Integrated Firebase services for authentication, media storage, push notifications, and real-time database updates. ([GitHub Link](#))

### Flutter Chat Application – Real-time Messaging System

**Tech Stack:** Flutter (Dart), Firebase Authentication, Cloud Firestore, Firebase Storage

- Built a real-time chat application supporting one-to-one messaging with media sharing capabilities.
- Enabled Google Sign-In authentication and managed user sessions securely using Firebase Auth.
- Optimized data flow and improved application stability through efficient Firestore integration. ([GitHub Link](#))

### Catalog App — Product Listing and Detail UI

**Tech Stack:** Flutter (Dart), Material 3, JSON (Local Data), rootBundle

- Designed a responsive catalog application with authentication, product listing, and detailed item views.
- Utilized JSON-based local data management to dynamically render product information without backend dependency.
- Enhanced user experience with modern Material 3 UI components and structured navigation flow. ([GitHub Link](#))

## ACHIEVEMENTS AND LEADERSHIP

### Achievements

- Winner – Departmental Innotech'24 Innovation Showcase
- Finalist – Reckon 5.0 Technical Hackathon
- Winner – Epoque'24 & '25 Photography Contest

### Leadership

- Chairperson – KIET Movie Society
- Student Coordinator – PR & IR Department
- Android Development Coordinator – DevUp KIET
