PROJECTS

1. HRMS APPLICATION

GitHub : [Project Link](#)

Technologies : HTML5, CSS3, JavaScript, React.js, RESTful API

- Developed an HRMS application to streamline employee management with distinct roles for Users and Admins.
- Enabled employees to log in, update profiles, apply for leaves, and track leave status through a responsive UI.
- Integrated RESTful APIs to fetch, display, and update employee and leave data dynamically.
- Implemented form validations and interactive components using React.js and JavaScript.
- Designed user-friendly dashboards for employees and HR with role-based UI features.
- Enhanced overall performance and user experience with state management in React.

2. Kids Learning Center Website

Live Preview : [Project Link](#)

Technologies : HTML5, CSS3

- Customized a Colorlib HTML/CSS template to build an interactive and responsive children's education website.
 - Implemented a navigation bar, multiple sections like About, Classes, Pricing, Testimonials, and Contact for an interactive user experience.
 - Used flexbox and CSS grid for layout management and background images, overlays, and hover effects to enhance design aesthetics.
 - Integrated Font Awesome icons for visual appeal and improved user interface.
-
