-

PROFILE

"Flutter Developer with hands-on experience in building cross-platform mobile apps. Skilled in Firebase, REST APIs, and state management (Provider, Riverpod, GetX). Passionate about writing clean, maintainable code and delivering user-friendly apps

WORK EXPERIENCE

Freelance Flutter Developer (2023 - Present)

- Developed and published 2 mobile applications (available on GitHub).
- Designed and implemented clean, responsive, and animated UIs.
- Integrated Firebase Authentication, Firestore Database, and Cloud Storage.
- Worked with REST APIs & JSON for dynamic data handling.
- Used Git & GitHub for version control and project collaboration.
- Deployed apps on Android (Google Play Store) for testing purposes.
-

Other Projects

- Chat Application - Real-time chat app using Firebase (Auth + Firestore).
- E-Commerce UI App - Full shopping UI with product listing, cart, and checkout flow.
- Task Manager App - To-do app with local storage and push notifications.
-
