

SHYAM MATAM

Frontend Developer

+91 7382004208 ◇ Hyderabad ◇ matamshyam01@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with experience building scalable web applications using **Next.js, React.js, and TypeScript**. Skilled in developing responsive UI components, integrating REST APIs, and optimizing performance through **SSR, SSG, ISR, lazy loading, and bundle optimization**. Experienced in building authentication systems, role-based dashboards, and production-ready features in collaborative development environments.

SKILLS

Frontend:	Next.js, ReactJS, TypeScript, JavaScript, Tailwind CSS, SCSS, Bootstrap, CSS, HTML
Backend:	Node.js, Express.js, REST APIs
Performance & SEO:	SSG, SSR, ISR, Lazy Loading, Dynamic Imports, Bundle Optimization
Database & Tools:	MongoDB, Git, GitHub, Webpack, Babel, NPM, Yarn

Experience

BULKSMSAPPS | Hyderabad

Frontend Developer | JAN 2026- Present

- Developed and maintained **scalable frontend modules** using **React.js**, building reusable UI components for admin and user dashboards.
- Integrated multiple **REST APIs using Axios** for real-time data operations including user management, campaign data, and admin management.
- Developed **dynamic CRUD interfaces** for managing application data with proper loading states, error handling, and responsive UI behavior.
- Used **Git and GitHub workflows (branches, pull requests, code reviews)** for collaborative development and version control.

DataM Intelligence | Hyderabad, India

Frontend developer Trainee | FEB 2025 – AUG 2025

- Designed and developed production-ready features for the research intelligence dashboard, enhancing **performance** and user engagement.
- Implemented **role-based authentication** using **Auth.js, Next.js, JWT, middleware.js**, and **MongoDB** for both user and admin access control.
- Integrated backend **API routes** with **Next.js** frontend, implementing efficient data fetching using **Server-Side Rendering (SSR)** and **Incremental Static Regeneration (ISR)**, and **optimized loading time by 30%** for a smoother user experience.
- Built **100+ responsive** UI components for web application using **Next.js, SCSS, Tailwind** and **Bootstrap**.
- Optimized performance** by applying lazy loading, dynamic imports, and reducing bundle size from **2MB** to under **800KB** for faster page loads.

PROJECTS

Job Listing Platform

Links: [Livelihood](#) [GitHub](#)

- Built a full-stack job board enabling recruiters to post/manage listings and applicants to apply in real time.
- Implemented secure user **Authentication** using **JWT** & role-based dashboards for user and Recruiter.
- Technologies: Next.js, React, Node.js, MongoDB, Tailwind CSS, JWT Authentication**

Movie App (TMDB)

Links: [Livelihood](#) [GitHub](#)

- Developed a **movie discovery web application** displaying trending movies and TV series with detailed pages for movies, series, and actors; implemented **search functionality, dark mode UI, and features like watchlist and favorites**.
- Technologies: Next.js, React, Node.js, local storage.**

EDUCATION

Bachelor of Technology in Computer Science and Engineering, Vignana Bharathi Institute of Technology

2019 - 2023
