## CAREER SUMMARY

Aspiring software developer with a strong foundation in Data Structures and Algorithms, complemented by hands-on experience in Full Stack Development. Proficient in developing scalable web applications, writing efficient backend logic, and creating responsive user interfaces. Passionate about solving complex problems and continuously enhancing coding skills. Looking for opportunities to leverage my technical knowledge and contribute to innovative projects in a dynamic team environment.

## EXPERIENCE

### Frontend Developer | McKinsol Consulting Inc. | June 18, 2025 – Present

- Developed and maintained Angular-based web applications with focus on performance, scalability, and responsive design.
- Collaborated with cross-functional teams to build reusable UI components and improve overall user experience.
- Worked on multiple client websites, ensuring modern, clean, and accessible front-end interfaces.
- Integrated RESTful APIs, optimized page load times, debugged complex UI issues, and contributed to code reviews and agile development processes..

### Frontend-Developer Intern | Bharti Airtel Ltd. | July 28, 2024 – Dec 28, 2024

- Assisted in designing, developing, and maintaining responsive websites and web applications using HTML, CSS, JavaScript, and frameworks like React. Collaborated with the development team to implement user-friendly features and enhance website performance

## EDUCATION

### Bachelor of Technology (B-Tech) in Computer Science with Data Science

AKTU University, Raj Kumar Goel Institute of Technology, Ghaziabad, India with **80%**

2021 - 2025

**10+2 Standard** from UCSKM Public School ,Rajasthan, India with **85 %**

2020 – 2021

## Skills

- Technical Skills:** Java, Data Structures and Algorithm, HTML, CSS, JS, Angular, Ionic , ReactJS Node.JS, MySQL, Git/GitHub
- Soft Skills:** Public speaking, Team Work, Decision Making, Leadership , Problem Solving

## Projects

- Sales Order Management** : - Worked as a Frontend Developer at McKinsol Consulting Inc. on a Sales Order Management application built with Angular. Developed user-friendly screens for customer and order entry, implemented dynamic forms and validations, and integrated RESTful APIs for smooth data transfer to the SAP backend.
- AgroInsight: An AI Powered Farmer's Associate** : - Worked on an AI-driven platform for crop disease detection and weather forecasting to support farmers in decision-making. Integrated disease prediction and weather data to provide real-time alerts and actionable insights, helping improve crop health, reduce losses, and increase overall productivity.
- E-commerce Website**: A modern e-commerce platform built with Angular, offering a responsive and dynamic user experience. Shop from an extensive collection of products with features like real-time search, personalized recommendations, and a secure checkout process. Designed for speed and simplicity, ensuring every shopper enjoys a seamless journey
- Client Websites** : Worked on Various dynamic websites built using Angular and Ionic frameworks. My role involved converting static content into fully functional, API-driven interfaces by integrating RESTful services for real-time data rendering. I focused on creating responsive, high-performance, and user-friendly designs while collaborating closely with backend teams to ensure seamless data flow and functionality across platforms.

## Certification /Awards

- Certified With Data Structures And Algorithms
- Certified With Java Programming

- Participated in an **Intra-college coding competition** and achieved **2nd position** .
