SUMMARY

Enthusiastic MERN Stack Developer with strong skills in React.js, Node.js, Express.js, and MongoDB. Passionate about building scalable web applications and eager to contribute to modern full-stack development teams. Completed multiple personal projects and mini apps using REST APIs, JWT authentication, and state management with React Context.

PROJECT

GREENCART - SMART GROCERY DELIVERY PLATFORM

Grocery Delivery Web Application (MERN Stack)

- Developed a full-stack MERN (MongoDB, Express.js, React.js, Node.js) grocery delivery application with dynamic product listing, cart management, and user authentication.
- Integrated Bootstrap for responsive UI and optimized user experience across devices.
- Implemented backend APIs using Node.js and MongoDB, enabling secure login, cart operations, and data persistence.

CODING PROJECT

- Data Handling: Integrated JSON data with web applications for dynamic content rendering.
- Responsive Web Design: Built mobile-friendly interfaces using Bootstrap and Flexbox/Grid for optimal cross-device performance.
- Front-End Development: Created dynamic and interactive user interfaces using React.js, React Router, and Hooks.
- Back-End Development: Developed RESTful APIs using Node.js and Express.js to handle data operations securely.
- Database Management: Used MongoDB for CRUD operations and data modeling in full-stack applications.
- Version Control: Collaborated on projects using Git and GitHub for version management and team workflows.
- AI Integration: Leveraged OpenAI API and other tools for AI-powered features like smart suggestions and prompt automation.
- State Management: Managed complex app states using React useState, useEffect, and Context API.

EDUCATION

B.E MECHANICAL ENGINEER

Anna University Regional Campus • Madurai • 08/2019 - 07/2023 • 7.96

HSC

ST. John's Matric. Hr. Sec. School • Madurai • 06/2018 - 05/2019 • 65%

SSLC

Blessing Matric.Hr.sec.school • Madurai • 06/2016 - 05/2017 • 82%

CERTIFICATIONS

MERN Stack Developer

Innovel Training Institute • 2025

- During the course, I built a complete MERN project — a grocery delivery web app — where I implemented CRUD operations, JWT-based authentication, and React state management.
- That project experience made the certificate directly applicable to real-world development.
- Developed end-to-end web apps with authentication, APIs, and frontend integration.

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code

Other: JWT Authentication, REST APIs, Responsive Design, AI Tool Integration
