

VENKATANARAYANA K

React.js / Frontend Developer

venkatkonanki123@gmail.com | +91 7093572962 | Hyderabad, India | [linkedin.com/in/venkatanarayana-konanki-761387305](https://www.linkedin.com/in/venkatanarayana-konanki-761387305)

PROFESSIONAL SUMMARY

React.js Frontend Developer with 1.3+ years of hands-on experience building production-grade web applications. Delivered 3 live projects including a US-based food delivery platform (mealvillage.com) and an AI-powered fashion tool (cuttingmaster.ai). Skilled in React.js, JavaScript (ES6+), REST API integration, and responsive UI development using Bootstrap and CSS3.

TECHNICAL SKILLS

Languages: JavaScript (ES6+)

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, jQuery

API & Tools: REST APIs, Git, GitHub, VS Code

Core Concepts: Responsive Design, Reusable Components, Cross-Browser Compatibility, Form Validation, Performance Optimization

WORK EXPERIENCE

React.js Developer — G4 Software Solutions Pvt Ltd

November 2024 – Present | Hyderabad, India

- Built and deployed 3 production React.js applications currently live on the web
- Developed 20+ reusable UI components reducing development time across projects
- Integrated REST APIs to fetch and display dynamic data for CRM and e-commerce platforms
- Improved page load performance by optimizing component rendering and reducing redundant re-renders
- Ensured cross-browser compatibility across Chrome, Firefox, Safari, and Edge
- Implemented dynamic form validations improving data accuracy for customer-facing forms

PROJECTS

CRM Application | Nov 2025 – Present

Web application to manage customer and lead data for sales tracking and pipeline management.

- Built complete CRM dashboard with React.js and Next.js for managing leads and customer records
- Designed modular component architecture making features easy to extend and maintain
- Integrated REST APIs to sync real-time customer and sales data

MealVillage — Food Delivery Platform | Jan 2025 – Present | mealvillage.com

US-based food delivery service where customers browse menus, place orders, and track delivery.

- Developed full customer-facing UI with React.js, Bootstrap, and JavaScript ES6+
- Built dynamic product listing pages with real-time API data for menu and order updates
- Implemented fully responsive design working on mobile, tablet, and desktop

CuttingMaster.ai — AI Fashion Tech Tool | Nov 2024 – Mar 2025 | cuttingmaster.ai

AI-powered fabric cutting tool for the fashion industry handling blouses, shirts, kids wear, and pants.

- Developed interactive UI for pattern selection and fabric configuration using React.js
- Implemented dynamic form validations and user interaction flows using JavaScript
- Ensured mobile responsiveness and cross-browser support using Bootstrap and CSS3
