SUMMARY

Results-driven Laravel Backend Developer with 5 production-grade projects spanning RESTful APIs, payment gateway integrations, and real-time WebSocket systems. Consistently applies SOLID Principles and Design Patterns to deliver clean, scalable, and secure backend architectures. Proven ability to contribute in professional team environments and ship features under real delivery timelines.

TECHNICAL SKILLS

Back-End Development: PHP 8+ | OOP | Laravel Framework | RESTful API Design | JWT | WebSocket
Architecture: Design Patterns | SOLID Principles | MVC | PSR-12
Databases: MySQL | Schema Design | Database Indexing | Query Optimization | Eloquent ORM
DevOps & Tools: Git & GitHub | Postman | Composer | MySQL Workbench | Spatie | Swagger
Soft Skills: Problem Solving | Clear Communication | Time Management | Team Collaboration | Leadership

PROFESSIONAL EXPERIENCE

StackDeans 04/2026 – 05/2026
Backend Developer - Intern Alexandria, Egypt

- Shipped Laravel backend features in a live production environment, collaborating with a cross-functional engineering team under real delivery timelines.
- Enforced RESTful API standards and PSR-12 code style in Git-based workflows through active code reviews.

ISchool 04/2026 – Present
Computer Tutor - Part Time Cairo, Egypt

- Taught programming fundamentals and basic coding concepts to students, successfully enhancing their technical understanding and foundational knowledge.

KEY PROJECTS

E-Commerce Platform 🔗

- Developed scalable RESTful APIs for product catalog, cart, and order management, integrating Jetstream authentication and multi-language support to enhance user experience.
- Stack:** *Laravel · Jetstream · PHP · MySQL · REST API · MVC · Localization*

Booking System + Paymob Payment Gateway 🔗

- Engineered a RESTful Booking API with Sanctum authentication, integrating the Paymob payment gateway using Strategy and Factory patterns, and implementing webhook verification for secure transactions.
- Stack:** *Laravel · PHP · MySQL · Sanctum · Strategy & Factory Pattern · REST API · Eloquent ORM*

Product Management System 🔗

- Full-stack platform with JWT auth, Spatie role/permission management, media uploads, nested categories, and an admin dashboard using the Service Pattern.
- Stack:** *Laravel 13 · PHP · MySQL · JWT · Spatie · REST API · Blade · Service Pattern*

Real-Time Chat Application 🔗

- Private messaging via Laravel Reverb, Echo & Broadcasting · event-driven real-time notifications
- Stack:** *Laravel · Reverb · Echo · Broadcasting · WebSocket · MySQL*

EDUCATION & TRAINING

Menoufia University — Faculty of Computer & Information Science 2019 – 2023
BSc in Computer & Information Systems Menoufia, Egypt

Route Academy — Backend Web Development Bootcamp 2025 – 2026
Advanced curriculum: PHP · MySQL · OOP · Design Patterns · MVC · Laravel · RESTful APIs · Git & GitHub · WordPress · Docker Online
