

MM

Mujibat Muhyideen

Laravel Developer

PROFESSIONAL SUMMARY

Highly motivated and professional Laravel Developer with over 4 years of hands on experience in crafting robust web solutions. Proficient in Laravel framework, adapted to creating efficient code and delivering high- quality projects. Skilled in problem-solving, collaborating with teams and ensuring unlined communication with stakeholders. Known for exceptional interpersonal abilities, capable of thriving both independently and within collaborative environments. Continuously learning and adapting to new technologies to seamless digital experience.

EXPERIENCE

Backend Developer (Laravel) | Fivani (<https://fivani.com/>) |
(e.g., July. 2025 – Present)

- Developed backend APIs for a contract management platform, enabling users to create, modify, and track contracts and payments.
- Built a comprehensive admin portal with data visualizations (charts, tables) for monitoring platform analytics and user activity.
- Integrated secure payment processing and managed database design for optimal performance.

Software Developer | Al-Mubarak Cooperative Society (<https://www.almubarakcooperativesociety.ng/>) |
(Sep. 2022 – Apr. 2023)

- Developed a custom Laravel banking app serving over 20,000 users.
- Built modules for savings, investments, and loans, and implemented a multi-admin system for user management.

Software Developer Intern | Gigs-Tech Solutions (<https://gigstechsolutions.com.ng/>) |
(Aug. 2022 – Sep. 2023)

- Developed an HR application, and an inventory management system using Laravel.
- Performed maintenance and troubleshooting on existing websites and desktop applications.

SKILLS

- HTML
- CSS/BOOTSTRAP/SASS/SCSS
- JAVASCRIPT /TYPESCRIPT (AJAX)
- PHP/OOP
- LARAVEL
- MYSQL/MYSQLI
- GIT/GITHUB
- APIs
- POSTMAN

EDUCATION

University of Ilorin, Kwara state, Nigeria.

Bachelor of Art in Linguistics.

2022- 2025 (Present).

SOFTWARE DEVELOPER ROLE AT GIGS-TECH SOLUTIONS AND CONSULTS, IBADAN, NIGERIA. (October 2024 till present)

- Spearheading the development of a comprehensive **School Management System**, incorporating features such as student enrollment, result processing, attendance tracking, and fee management to streamline academic and administrative workflows.
- Overseeing the **maintenance and optimization** of existing applications and websites, ensuring seamless user experiences, enhanced security, and up-to-date functionality

PERSONAL PROJECTS:

• **VTU & Utility Services Platform:** Developed and deployed a full-stack fintech application for airtime purchase, bill payments, and result checking, integrating secure external payment APIs. Designed a scalable architecture for high-volume transactions with real-time updates, user wallet management, and admin financial dashboards. The platform is actively used by clients for secure, efficient transactions.

• **Blog and Content Management System:** Designed and developed a custom blog and content management system using Laravel. The platform allows users to create, edit, and publish articles, as well as manage categories and tags. Implemented role-based access control to differentiate between admin and author functionalities.

• **E-Commerce Platform:** Developed a comprehensive e-commerce platform using Laravel that supports product listings, user authentication, shopping cart functionality, and payment processing. Integrated with Stripe for secure transactions and implemented admin panel features for managing inventory and orders. Enhanced user experience with responsive design and optimized backend performance.

• **Haircare Booking System:** Built a salon booking platform with Laravel that lets customers schedule manicure and pedicure appointments by selecting preferred dates, times, and staff. Integrated real-time availability tracking, staff notifications, and a booking history system to prevent double bookings and streamline operations.

ADDITIONAL INFORMATION:

"Available on request for immediate engagement. Committed to clean code, scalable systems, and collaborative development."
