Frontend: ReactJS
Backend: NodeJS
Databases: MongoDB, PostgreSQL
Tools / Platforms: Android Studio,Git/Github, Cloudinary,Riverpod, Figma,Firebase,Retrofit,RoomDb,Hilt

3 WORK EXPERIENCE

Particle14

01/2026 – 03/2026

Mobile Developer

Noida , India

- Developed a **CRM, HR, and Employee Management** system using **Flutter** with **Riverpod** for efficient state management, delivering **high-performance mobile features, smooth UI interactions, and seamless API integration.**

Tech Immortals

01/2025 – 12/2025

Full Stack / Mobile Developer (Remote)

Noida , India

- Developed and maintained responsive full-stack web and mobile solutions using React, Node.js,Flutter and PostgreSQL.
- Improved **user experience** and **application performance** by optimizing code and integrating **Node.js** with **PostgreSQL**, resulting in faster response times and increased **user retention**. Collaborated with **cross-functional teams** to deliver **production-ready features** on time.

VidyaInterna Hub

July/2024 – Nov/2024

Full Stack Developer(Remote)

Bhopal, India

- Built an interactive EdTech platform with Next.js 13, SSR, and API caching, enhancing page speed and user experience.

4 PROJECTS

[Chat App](#) | Flutter,Dart,Riverpod,Firebase

- Developed a **real-time chat application** using **Flutter**, **Firebase Authentication**, and **Firestore** with **Riverpod** state management, enabling **secure user login** and **instant messaging with live updates.**

[Weather App](#) | JetpackCompose,MVVM,Retrofit, , API Integration, Google Maps API

- Developed a weather forecasting mobile application that integrates with the OpenWeatherMap API to fetch real-time weather data based on the user's location. Utilized Retrofit for API communication and JSON parsing to process and display weather information.

[movieApp](#) | Flutter,dart,Riverpod,OMDb API

- Built a **Flutter movie application** featuring a **grid-based movie list** and **interactive movie detail screens** with a **modern and visually appealing UI**, fetching data dynamically from the **OMDb API.**

[Food Ordering App](#) | Flutter,Dart,RazorPay Payment

- Built a **Flutter-based e-commerce app** with **custom UI** and a **splash screen**. Integrated the **Razorpay** payment gateway via **native Android modules** and **Method Channels**, ensuring **secure transactions** and a **smooth checkout experience.**

[Notes App](#) | Flutter ,Dart,Riverpod

- Developed a **cross-platform Notes Application** using **Flutter** with a **clean and user-friendly interface**. Implemented features include **creating, editing, deleting, and organizing notes**. Notes are stored **locally on the device**, ensuring **offline accessibility**. Additionally, integrated a **dark mode/light mode toggle** for a **customizable user experience.**

[SaaS Application: Ematric](#) | Reactjs,Tailwind CSS

- Designed a responsive SaaS dashboard with reusable components and Integrated data visualization and authentication modules.
