Summary

Backend Developer with 2.5+ years of experience building scalable Laravel-based SaaS applications and RESTful APIs. Strong expertise in database design, multi-tenant architecture, third-party integrations, cloud deployment, and performance optimization. Experienced in leading development teams and delivering production-grade backend systems. Also working as a freelance Laravel developer delivering custom web solutions.

Skills

Languages: Javascript, PHP, SQL,

Backend: Laravel, RESTful APIs, MVC Architecture, OOP

Frontend: React.js, Next.js, Blade

Database: MySQL, Relational Database Design, Query Optimization

Authentication & Security: Laravel Passport, SSO Implementation

DevOps & Tools: Git, GitHub, Docker, Alibaba Cloud Deployment

Integrations: Payment Gateway, Third-party API Integration

Concepts: SaaS Architecture, Multi-Tenancy, Clean Architecture, Performance Optimization

Work Experience

Laravel Developer

July 2025 – February 2026

Trilokya Technology

- Developing and maintaining a Laravel-based GRC (Governance, Risk, and Compliance) SaaS application.
- Designing scalable and normalized database schemas for audits, compliance templates, and risk tracking modules.
- Building and integrating RESTful APIs for authentication, document management, and reporting systems.
- Developing interactive dashboards using Blade and JavaScript.
- Applying clean architecture and SOLID principles to improve maintainability and scalability.

Software Developer

June 2024 – July 2025

The Pace Infosys

- Led backend development and conducted code reviews for a team of developers.
- Designed and optimized RESTful APIs for scalable Laravel applications.
- Improved database performance through query optimization and indexing strategies.
- Built React-based admin dashboards for real-time monitoring and reporting.
- Implemented Single Sign-On (SSO) using Laravel Passport.
- Integrated Payment Gateway for secure online transactions.
- Developed an automated online proctoring system using Python.
- Managed cloud deployment and server configuration on Alibaba Cloud.

Software Developer Intern

May 2023 – June 2024

Deerwalk Group

- Maintained and enhanced 20+ Laravel-based applications across multiple institutions.
- Developed a full-stack school management system using Laravel and React.
- Built REST APIs for a mobile education application used in rural Nepal.
- Developed a QR-based event registration and check-in system.
- Conducted workshops on Laravel development workflow and Git best practices.

Freelance Experience

Freelance Software Developer **2024 – Present**

- Developed custom Laravel, React based web applications for clients.
- Built REST APIs and integrated third-party services based on client requirements.
- Designed and optimized relational databases for scalable performance.
- Handled deployment, hosting setup, and production bug fixes.
- Delivered end-to-end backend solutions with focus on code quality and maintainability.

Education

Masters in Business Administration **2025 - Present**
Pokhara University

Bachelor’s of Science in Computer Science and Information Technology **2019 - 2025**
Tribhuvan University
