SUMMARY

Java Backend Developer with hands-on experience building production-ready RESTful APIs using Spring Boot, Spring Security, and MySQL. Developed enterprise-grade backend projects including an E-Commerce Backend System with JWT authentication and secure session management. Proficient in microservices architecture, JPA/Hibernate ORM, and scalable backend development. Strong understanding of object-oriented programming, RESTful API development, and clean code principles. Seeking a Java/Spring Boot Developer role to contribute to innovative backend engineering projects.

EDUCATION

Institute of Management and Technology

Bachelor of Computer Applications

2022 - 2025

Nanded, Maharashtra

Janata High School And Junior College

12th Computer Science, Computer Science

2021 - 2022

Naigaon, Maharashtra

PROJECTS

Manga Reading | Full Stack Developer Project

Tech Stack: Next.js, TypeScript, Spring Boot, Hibernate/JPA, MySQL, Cloudinary, Zustand, Tailwind

- Developed a manga reading platform using Next.js with SSR and SSG for better SEO and performance.
- Implemented authentication using Clerk with protected routes and session handling.
- Built Spring Boot REST APIs with Hibernate/JPA and MySQL for manga management.
- Integrated Cloudinary for image storage and Zustand for global state management.
- Deployed frontend on Vercel and backend services using modern deployment workflows.

GitHub : <https://github.com/saikingalgulwad/manga>

DevVerse | Full Stack Developer Project

Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Spring Boot, MySQL, REST APIs

- Developed a modern developer community platform using Next.js and TypeScript with responsive UI design.
- Built secure backend REST APIs using Spring Boot and MySQL for user and content management.
- Implemented authentication, profile management, and interactive community features.
- Used Tailwind CSS for clean UI components and optimized frontend performance.
- Deployed frontend on Vercel and hosted Spring Boot backend on Render using Git-based deployment workflows.

GitHub : <https://github.com/saikingalgulwad/dev-verse>

QuizCoder | Full Stack Developer Project

Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Spring Boot, MySQL, REST APIs

- Developed an interactive coding quiz platform with a responsive and user-friendly interface.
- Built backend APIs using Spring Boot and MySQL to manage quizzes, questions, scores, and user data.
- Implemented dynamic quiz functionality, result tracking, and real-time user interactions.
- Designed reusable frontend components using React.js and Tailwind CSS for better maintainability.
- Integrated REST APIs for seamless communication between frontend and backend services.
- Deployed Spring Boot backend on Render and frontend using modern deployment platforms.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, TypeScript, Java
- **Frontend (React / Next.js):** React, Next.js, Tailwind CSS
- **Backend (Java / Spring):** Spring Boot REST APIs
- **Tools:** Git, VS Code, IntelliJ
- **Core Full-Stack Concepts:** REST APIs, MVC Architecture (Spring MVC), CRUD Operations (REST & Database), Server-Side Rendering (Next.js), Static Site Generation (SSG), API Routes / REST Endpoints, Responsive Design, State Management Libraries (React), Web Performance Optimization (Frontend), SEO Best Practices (Next.js)
- **Backend (Java):** Spring Boot, Spring MVC, Hibernate / JPA, RESTful Web Services, Microservices (basic)
- **Databases:** Oracle, PostgreSQL
