🌐 Moustafa Outergera 🔄 OUTERGA-MOUSTAFA

PROFILE

Aspiring developer, passionate about building high-performance, scalable web applications. Rigorous and solution-oriented, I am currently gaining hands-on experience through an internship and contributing to real-world projects within a dynamic team.

TECHNICAL SKILLS

Backend

- PHP 8 · Laravel 11, Python
- ASP.NET Core · C#
- RESTful APIs · Sanctum
- PostgreSQL · MySQL · SQL
- Python

Frontend

- JavaScript (ES6+) · React
- Alpine.js · Livewire
- Tailwind CSS · Blade · Twig
- AJAX · Fetch API
- Responsive Design

Tools & Environment

- Git / GitHub (GitFlow)
- Docker · ngrok
- Claude Code (AI-assisted)
- Jira · Trello (Agile)
- UML · Merise · Figma

SELECTED PROJECTS

WhatsApp Recruitment Bot

ongoing · 2026

Internship project · Claude Code (AI-assisted development) · WhatsApp Cloud API

- Automated recruitment bot for pre-screening and communicating with candidates via WhatsApp.
- Built with Claude Code (AI pair-programming) to speed up implementation and testing.

LocalMart — Collaborative Marketplace

2026

Laravel 11 · Livewire · Stripe API · MySQL · Tailwind CSS · Spatie RBAC

- Multiple secured dashboards using **Spatie Permissions**, Policies and FormRequests.
- Payments via **Stripe API**, email notifications and fine-grained permission management.
- Reactive **Livewire/AJAX** interface — smooth navigation with no page reloads.

ColocTraker — Shared-Housing Manager

2026

PHP 8 · Laravel 11 · Alpine.js · Tailwind CSS · PostgreSQL

- Tracking of shared expenses and **automatic debt splitting** between flatmates.
- Clean MVC architecture, reactive Alpine.js interface and modern Tailwind CSS UI.

MedCare — Appointment Management

2026

Tailwind CSS · Vanilla JS

- Responsive application for managing medical appointments with dynamic filtering.
