PROFILE SUMMARY

Full-Stack Developer with nearly 2 years of experience in developing web and mobile applications using PHP, Laravel, React Native, React.js, Node.js, and Express.js. Experienced in building scalable solutions including HRMS, Hospital Management, School Management, Restaurant Management, and Inventory Management Systems. Skilled in REST API development, MySQL and MongoDB database management, real-time location tracking, client communication, and requirement analysis.

TECHNICAL SKILLS

Frontend : React.js, React Native, HTML5, CSS3, JavaScript, jQuery, AJAX
Backend : PHP, Laravel, Node.js, Express.js
Database : MySQL, MongoDB
Tools : Git, GitHub, cPanel

WORK EXPERIENCE

Software Developer

Chaaruvi Infotech Private Limited | Nov 2024 – June 2026

- Developed and maintained web and mobile applications using PHP, Laravel, React Native and React.js
- Built RESTful APIs and integrated them with mobile and web applications.
- Worked on multiple projects including HRMS, Restaurant Management, School Management, Hospital Management and Inventory Management Software.
- Implemented real-time location tracking functionality in mobile applications.
- Managed client requirements and communicated directly with clients to understand business needs.
- Improved application performance and fixed bugs to ensure smooth system operation.

INTERNSHIP

Tech Cherry Software Consultancy Services Pvt. Ltd.

- Developed a real-time web application with a dynamic admin panel using React.js, Node.js, and Express.js.
 - Managed database operations using MongoDB and developed secure RESTful APIs.
 - Implemented JWT-based authentication and authorization for secure access control.
-

PROJECTS

HRMS (Human Resource Management System) | Laravel , PHP , React Native, MySQL

Developed an HRMS application to manage employee information and HR operations. The system includes modules for employee management, attendance tracking, payroll processing, leave management, and holiday management. Implemented REST APIs for seamless communication between web and mobile platforms.

- Developed backend APIs using **PHP and Laravel**.
- Integrated APIs with **React Native mobile application**.
- Implemented **employee attendance and leave request features**.

Hospital Management System – Web & Mobile | Laravel ,PHP, React Native , MySQL

Worked on a hospital management system to manage patient registration, doctor appointments, and medical records. Developed backend APIs and integrated them with mobile application for real-time data access.

- Enabled patients to book appointments and access reports via the mobile application.
- Enabled staff to manage attendance through the mobile application integrated with backend APIs.
- Implemented an admin panel in the mobile application where the admin can view and manage modules such as IPD, OPD, Appointments, Attendance, and Employee details.

Hotel Management System – Web & Mobile | PHP, React Native , MySQL

Developed a management system for room, table, swimming pool and party hall booking with multi-company support and user privilege management. Implemented swimming pool and party hall reservations, kitchen inventory/stock management, and mobile-based order processing.

- Developed a mobile application for order management with automatic KOT printing.
- Room and swimming pool booking system with configurable company settings (hour-based and person-based booking).
- Party hall and table reservation management for events and customers.
- Kitchen inventory and stock management to track item usage and availability.
- Multi-company support with role-based user privilege management.

Inventory Management System – Web & Mobile | PHP, React Native, MySQL

- Managed product stock, purchases, sales, and payment records.
- Implemented automatic inventory updates based on sales and purchase transactions.
- Developed web and mobile interfaces for real-time inventory tracking.

Transport Book Mobile Application – Mobile | PHP, React Native, MySQL

- Developed a mobile application for transporters to manage trips and transportation operations.
- Implemented trip, payment, and driver management modules.
- Added vehicle tracking and route monitoring features.
- Enabled viewing of payment history and outstanding balances.

Web Applications | React.js, Node.js, Express.js, MongoDB

- Tech Cherry – Developed a dynamic website and admin panel for Tech Cherry using React.js and Node.js.
- Shree Job Consultancy – Built a job consultancy web application with an admin panel for managing recruitment operations.

TRAINING & CERTIFICATIONS

Coding Spoon Training | DSA & Java

Aug 2023

- Strengthened data structures, algorithms, problem-solving, and logical reasoning skills.

Seed IT Solution, Bhilai (Industrial Training) | Core Java

Aug 2022

- Learned Core Java fundamentals and developed applications using NetBeans and MySQL.

LeetCode (VaishnaviVerma2701)

- Solved 140+ coding problems focused on Data Structures and Algorithms.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering | 2020 - 2024

Rungta College of Engineering and Technology, Bhilai

CGPA: 8.5
