PROFILE SUMMARY

Motivated Full-Stack Web Developer with hands-on experience in PHP, Laravel, CodeIgniter, MySQL, React.js, Node.js, and MongoDB. Experienced in developing responsive, role-based web applications and RESTful APIs with a strong focus on performance, security, and scalability. Worked on projects including school management systems, cab booking applications, and e-commerce platforms. Strong problem-solving and collaboration skills with the ability to deliver reliable solutions and continuously improve technical expertise.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

June 2018

Takshshila Institute of Engineering & Technology, Jabalpur (MP)

RELEVANT COURSEWORK

Web Application Development | PHP Programming | Laravel Framework | MySQL Database Management | RESTful API Development | Frontend Development with HTML, CSS & JavaScript | Responsive Web Design | Object-Oriented Programming (OOP) | MVC Architecture | Git & Version Control

PROFESSIONAL EXPERIENCE

Grooves LifeStyle (Remote) – Laravel Developer

April 2025 – May 2026

- Designed and developed secure RESTful APIs using Laravel to support admin panel operations and system integrations.
- Built dynamic admin panel pages with role-based access for efficient data handling and workflow management.
- Developed backend modules to improve business process flow and reduce manual operational tasks.
- Optimized database queries and backend logic to enhance application performance and minimize production overhead.
- Implemented system monitoring and maintenance features to ensure application stability and reduce downtime.

Worldsoft IT Solutions, Bhopal – PHP Web Developer Intern

Feb 2024 – March 2025

- Developed responsive web pages using PHP, Bootstrap, HTML, and CSS during hands-on training projects.
- Worked on backend modules using PHP, CodeIgniter, and MySQL to handle basic CRUD operations.
- Implemented UI enhancements using custom CSS and reusable layout components to improve usability.
- Assisted in developing and maintaining training-based web applications under senior developer guidance.
- Gained practical exposure to full-stack PHP development through real-time project assignments.

TECHNICAL SKILLS

HTML5 | CSS3 | Bootstrap | JavaScript | PHP | Laravel | CodeIgniter | MySQL | React.js | Node.js | MongoDB | WordPress | RESTful APIs | OOP / MVC | Git & GitHub | Web Application Development | Backend & Full-Stack Development | Responsive Web Design | API Integration | Version Control

PROJECT EXPERIENCE

Grovess LifeStyle Company – School Management System

April 2025 – May 2026

Technologies: Laravel, PHP, MySQL, HTML, CSS, Bootstrap, JavaScript

- Designed and implemented a role-based system with Admin, School, Teacher, and User modules for efficient school management.
- Developed features for student enrollment, attendance tracking, class scheduling, and performance monitoring.
- Implemented role-specific dashboards and access controls to enhance security and usability.
- Created customizable reports and analytics for administrators to track school performance.
- Built responsive interfaces using Bootstrap and custom CSS to ensure smooth user experience across devices

WorldSoft It Solution – Cab Booking System

June 2025 – Aug 2025

Technologies: Laravel, MySQL, RestAPI

- Developed a cab booking application with OTP-based login and authentication.
- Implemented RESTful APIs for booking, ride tracking, and driver management.
- Designed backend modules for user and driver roles, ride requests, and status updates.
- Ensured responsive UI and secure data handling across the platform.

Worldsoft IT Solutions – E-Commerce

April 2025 – May 2025

Technologies: Laravel, MySQL, Bootstrap

- Developed an e-commerce platform with admin and user sides.
- Implemented product management, category management, and order tracking for admins.
- Built user features including product browsing, cart management, and order placement.
- Integrated payment gateways including Stripe and Razorpay for secure transactions.
- Designed RESTful APIs for smooth communication between frontend and backend.
- Ensured responsive UI and secure data handling across the platform.

FinDash – Financial Dashboard (React.js)

Technologies: React js, Tailwind CSS

- Developed a responsive financial dashboard using React.js
- Implemented light & dark mode for better user experience
- Built CRUD functionality for managing transactions
- Added search, filter, and sorting for transaction data
- Designed category-wise expense tracking & analysis
- Displayed key insights: total balance, income, and expenses
- Integrated data export features (CSV & JSON)
- Created interactive UI for spending insights & reports
- Optimized performance with efficient state management
