SRNTS Technology Services <i>MS Dynamics 365 CRM Intern</i>	November 2025 – March 2026 <i>Lucknow, Uttar Pradesh</i>

PROJECTS

- StudyNotion** | *MERN Stack EdTech Platform* | [Live Link](#)
- Designed, built, and configured a full-stack EdTech application using MongoDB, Express.js, React.js, Node.js with REST APIs and JWT + OTP authentication to meet business process requirements.
 - Managed environment configuration (.env files) for API keys and DB URIs; deployed backend on Render and frontend on Vercel with separate build configs and continuous deployment pipelines.
 - Wrote Python and JavaScript automation scripts for data seeding and build process automation; used Git feature branching and version tagging for structured release management.
- Learning Management System** | *ReactJS, Clerk Auth* | [Live Link](#)
- Built LMS with React.js and React Router for multi-page navigation across course listing, enrollment, and video playback; integrated Clerk for secure session management and access control.
- Edusity** | *ReactJS Learning Platform* | [Live Link](#)
- Developed a responsive educational web app using ReactJS; configured Web3Forms API with environment-based key management and maintained structured GitHub commit history for change tracking.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python
Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, ReactJS
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB
Tools: VS Code, Postman (API Testing)

CERTIFICATIONS

AWS Certified Cloud Practitioner – Amazon Web Services

Oracle Certified AI Foundations Associate – Oracle
