Education

- Currently pursuing **Bachelor of Technology** at Invertis University (2023-2027), with a current CGPA of **8.9**.
- Completed **Class 12th (UP Board)** in 2023 with a score of **81%**.
- Completed **Class 10th (UP Board)** in 2021 with a score of **85%**.

Skills

- **Programming:** C, Python, Java
- **Fullstack Development:** HTML, CSS, Javascript , Node.js, Express.js, MongoDB
- **AI/ML Frameworks:** Pandas, NumPy
- **Tools & IDEs:** GitHub, Jupyter Notebook, Visual Studio Code

Experience

Full Stack Developer (Internal Institute Project)

Sep 2025– Dec 2025

Smart India Hackathon (SIH)

React, Tailwind CSS, PostgreSQL, Python

- Part of a team that designed and built a scalable internship management platform.
- Added authentication, form checks, and automated emails using Node.js and PostgreSQL.
- Enhanced React interface performance, improving load speed by 30%.
- Successfully demonstrated the project's workflow and usability at SIH.

GOOGLE AI-ML VIRTUAL INTERNSHIP

Oct 2025–Dec 2025

Google(Virtual Internship Program)

- Currently completing a government-recognized virtual internship focused on AI, ML, and Google Cloud technologies.
- Gained hands-on experience with Google Cloud tools such as Vision API, Vertex AI, and AI Studio through practical labs and quizzes.
- Earned multiple Google skill badges by implementing real-world tasks like image classification, product search, and generative AI workflows.

Projects

Face Recognition Attendance System | Html, Css, Js , Python, SQLite

- Developed a real-time face recognition system using Python and OpenCV to automate attendance tracking and eliminate manual errors.
- Designed a web-based dashboard with HTML/CSS/JS and SQLite to securely store and manage attendance logs.

Classic Bakery Website | React, Node.js, Express.js, MongoDB

- Built a MERN-stack bakery website using React for the design and Node.js/Express for the backend logic.
- Integrated MongoDB to efficiently manage user data, product catalogs, and orders, while ensuring a secure and seamless checkout experience.

Todo List using JWT and Multer | Html, Css, Js , Node.js, Express.js

- Developed a secure Full-Stack Todo application using Node.js and Express.js, implementing JWT-based authentication for robust user session management.
- Integrated Multer middleware to enable seamless file uploads for task attachments, efficiently managing multipart/form-data on the backend.

Certifications

- Python Programming Certification
- Javascript Certification
- IEEE Certification
- Job Fest Volunteer Certification
- Google AI-ML Virtual Intership Certification
