Skills

Python , HTML , CSS , SQL , Manual Testing

Projects

Personalised E-Commerce Website For Local Clothing Shops

Minor Project with Team

•Developed a personalized e-commerce platform aimed at supporting local clothing shop owners facing challenges from large online retailers like Flipkart and Amazon. •The website facilitates direct connections between local shop owners and customers, helping to increase visibility and sales for small businesses. •Enabled local shop owners to showcase their products with targeted ads, a feature not typically available on larger platforms like Flipkart and Amazon

Personal Portfolio

Individual Project

Designed and developed a fully responsive personal portfolio website using HTML , CSS , Javascript
