

Balbir Singh

Frontend Developer | banty450.bs@gmail.com | +91 7018571325 | Hamirpur (HP), India

PROFILE SUMMARY

Frontend Developer with hands-on experience in building responsive and interactive web applications using React.js, JavaScript, Tailwind CSS, and Firebase. Skilled in authentication, CRUD operations, API integration, protected routing, and responsive UI development. Built multiple projects focused on real-world application functionality and clean user experience.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript (ES6+), React.js, Firebase, Tailwind CSS, API Integration, Context API, Responsive Design, Git & GitHub, Vercel, Netlify

PROJECTS

Full Stack Todo App

Tech Stack: React.js, Firebase, Tailwind CSS, Context API

- Built a responsive Todo Application with Firebase Authentication and CRUD operations.
- Implemented protected routes, dark mode, loading states, and Context API state management.
- Integrated Firebase backend services for user authentication and real-time data handling.

Electro Mania – E-Commerce Frontend Website

Tech Stack: HTML5, CSS3, JavaScript, LocalStorage

- Developed a multi-page eCommerce frontend with cart and wishlist functionality.
- Implemented dynamic product rendering and LocalStorage-based cart persistence.
- Created responsive UI layouts optimized for mobile and desktop screens.

REST Countries Application

Tech Stack: React.js, REST API, Tailwind CSS

- Built a country information app using REST Countries API.
- Implemented search, region filtering, dark mode, and dynamic country detail pages.
- Practiced API fetching, conditional rendering, and responsive React UI development.
