PROJECTS

Intro-to-dom | HTML, CSS, Javascript

17-12-2025

- Implemented dynamic content updates using innerHTML, innerText, and textContent for headings, paragraphs, and buttons.
- Built an interactive DOM manipulation project using JavaScript, dynamically updating content, styling, and generating project lists to demonstrate frontend skills.
- Used querySelectorAll and getElementsByClassName to select and manipulate multiple DOM nodes efficiently.

To-Do-List App | HTML, CSS, Javascript, JSDOM

23-07-2025

- Developed a responsive To-Do List webapp with task creation, deletion and filtering features.
- Used localStorage for persistent task saving and Javascript DOM manipulation for dynamic updates
- Enhanced UX with real-time task count, completion toggles and intuitive UI styling.

Instafeed | React.js, Hooks, CSS

12-09-2025

- Built a mobile-friendly Instagram-style feed using React functional components and Hooks.
- Designed a responsive layout using CSS Grid, optimized for both desktop and mobile views.
- Implemented state management for likes and comments with dynamic rendering of posts.

EXPERIENCE

- * Directed a 5-member team with structured task assignments and communication, improving overall workflow efficiency.
- * Actively engaged in doubt-clarification groups, helping peers understand technical and career concepts..
- * Participated in multiple HR interview simulations to strengthen communication and confidence.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript ,React

Developer Tools: VS Code , Github, Chatgpt, Microsoft Copilot, Gemini

Technologies/Frameworks: ReactJS, NodeJS
