EXPERIENCE

RMSI

12/2025 – 05/2026

Data Annotator

Noida

- Working on Data annotation projects using UltraPeanut tools
- Performed image annotation tasks including Orientation landmark, head pose, face segmentation, which eye closure, scene Object and Classify Scene.
- Worked on video annotation and object masking tasks
- Maintained good quality and efficiency while completing annotation tasks according to project standards.

Cogito Tech

06/2025 – 09/2025

Data Annotator

Noida

- Performed LiDAR data annotation and object labeling for AI/ML training datasets.
- Used Segments AI tools for 3D annotation and key fragment tagging.
- Ensured high accuracy and quality checks for annotated datasets.
- Collaborated with the team to meet project deadlines and updates

SKILLS

Web Development Skills

- **Front-End Development :-**
Programming Language :- HTML, CSS, JavaScript
Libraries & Framework :- React & Redux Toolkit
UI Styling & Animation :- Bootstrap, TailwindCSS, Framer Motion
- **Back-End Development :-**
Programming Language :- NodeJs
Framework :- ExpressJs
- **Tools & Version Control :-** Git & Github, VS Code

Data Annotation Skills

- Image Annotation
- Video Annotation
- LiDAR 3D Point Cloud Clusters Annotation
- LandMark Annotation
- Object Detect Annotation
- Segments Annotation

PROJECT

Task Management System

MERN Stack Development

- Built a full-stack task management application using MongoDB, Express.js, React.js, and Node.js.
- Added secure user login and registration functionality using JWT authentication and protected routes.
- Developed features to create, update, delete, filter, and track tasks based on their status.
- Managed application state with Redux Toolkit and handled API requests using Axios.
- Created a responsive and user-friendly interface with form validation and proper error handling.
- Deployed the application, making it accessible and usable in a real-world environment.

EDUCATION

Lovely Professional University

2024 – Present

Bachelor of Computer Application

Online

Learning Aspects of Programming & Technologies.

- Learning Web Development using HTML, CSS, JavaScript, ReactJs, and Bootstrap
- Gaining knowledge of problem-solving, data structures, and algorithms

NIEST

2021 – 2023

ADCA

Noida, India

Learned MS Excel, HTML, CSS, JavaScript, Adobe Photoshop, and basic IT fundamentals concepts. Built a foundation in computer applications and web development through practical training.
